

ChinaAMC Return Securities Investment Fund

a fund established pursuant to
a Fund Contract taking effect from 5 September 2003 between the Fund Manager and the
Fund Custodian, as amended from time to time, and regulated under the *Securities
Investment Funds Law of the People's Republic of China*

HONG KONG COVERING DOCUMENT

This document (herein the “Hong Kong Covering Document”) is supplemental to, forms part of and should be read in conjunction with the prospectus for ChinaAMC Return Securities Investment Fund (the “Fund”) (as updated from time to time)(the “Prospectus”) and the Product Key Facts Statement of the Fund. Unless otherwise provided in this Hong Kong Covering Document, terms defined in the Prospectus shall have the same meaning in this Hong Kong Covering Document.

October 2020

IMPORTANT INFORMATION FOR INVESTORS

Important - if you are in doubt about the contents of the Prospectus, this Hong Kong Covering Document or the Product Key Facts Statement, you should consult your bank manager, legal adviser, accountant or other independent financial adviser.

China Asset Management Co., Ltd., the Fund Manager of the Fund, accepts full responsibility for the accuracy of the information contained in the Prospectus, this Hong Kong Covering Document and the Product Key Facts Statement of the Fund, and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement in these documents misleading. However, neither the delivery of the Prospectus, this Hong Kong Covering Document or the Product Key Facts Statement of the Fund nor the offer or issue of Fund Units shall under any circumstances constitute a representation that the information contained therein is correct as of any time subsequent to the date of publication. These documents may from time to time be updated.

The Fund is an open-ended contract-type investment fund established under a Fund Contract taking effect from 5 September 2003 between the Fund Manager and the Fund Custodian, as amended from time to time. **The Fund has been registered with and is subject to the on-going supervision of the China Securities Regulatory Commission (“CSRC”).**

The Fund has been authorised by the Securities and Futures Commission (“SFC”) in Hong Kong under Section 104 of the Securities and Futures Ordinance of Hong Kong (“SFO”) and is available for sale to the public in Hong Kong. Such authorisation is not a recommendation or endorsement of the Fund nor does it guarantee the commercial merits of the Fund or its performance. It does not mean the Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

This Hong Kong Covering Document is prepared for distribution in Hong Kong only. This Hong Kong Covering Document contains additional details of the Fund in connection with its authorisation for distribution in Hong Kong. It must be read in conjunction with the Fund’s latest available Prospectus and the Product Key Facts Statement.

Fund Units are offered only on the basis of the information contained in the Prospectus, this Hong Kong Covering Document and the Product Key Facts Statement, which are valid only if accompanied by a copy of the latest annual report and, if published thereafter, the latest half-yearly and quarterly report.

THE CHINA-HONG KONG MUTUAL RECOGNITION OF FUNDS (“MRF”)

On 22 May 2015, the SFC and the CSRC signed a “*Memorandum of Regulatory Cooperation concerning Mutual Recognition of Funds between the Mainland and Hong Kong*” (the “Memorandum”). The Memorandum provides a framework for mutual recognition of publicly offered funds between the CSRC and the SFC so that these recognised funds may be offered to the public in both markets.

Under the MRF framework, securities investment funds regulated by the CSRC and offered for sale to the public in Mainland China (i.e. the People’s Republic of China (“PRC”), which for the purpose of this Hong Kong Covering Document excludes Hong Kong, Macau and Taiwan) may be authorised by the SFC and offered to the public in Hong Kong, subject to any additional requirements imposed by the SFC.

The Fund is registered with and regulated by the CSRC and has been authorised by the SFC under the SFO pursuant to the terms of the MRF. The MRF operates under the following principles:

- a) the Fund meets the prevailing eligibility requirements released by the SFC;
- b) the Fund remains registered with the CSRC and is allowed to be marketed to the public within Mainland China;
- c) the Fund generally operates and is managed in accordance with the relevant laws and regulations in Mainland China and its constitutive documents (i.e. the Fund Contract);
- d) the sale and distribution of the Fund in Hong Kong shall comply with the applicable laws and regulations in Hong Kong;
- e) the Fund will comply with the additional rules released by the SFC governing the authorisation, post-authorisation and ongoing compliance, and the sale and distribution of the Fund in Hong Kong; and
- f) during the period the Fund remains authorised by the SFC, the Fund Manager shall ensure Fund Unitholders of both Mainland China and Hong Kong receive fair and the same treatment, including in respect of investor protection, exercise of rights, compensation and disclosure of information.

The Fund Manager confirms that Fund Unitholders of both Mainland China and Hong Kong will receive fair and the same treatment pursuant to (f) above.

The Fund is a MRF fund which is subject to the following eligibility requirements:

- a) the Fund is an eligible fund type under MRF;
- b) the Fund is established and managed and operates in accordance with Mainland China laws and regulations and its constitutive documents;
- c) the Fund is a publicly offered securities investment fund registered with the CSRC under the *Securities Investment Funds Law of the People's Republic of China*;
- d) the Fund has been established for more than 1 year;
- e) the Fund has a minimum fund size of not less than RMB 200 million or its equivalent in a different currency;
- f) the Fund does not primarily invest in the Hong Kong market; and
- g) the value of Fund Units sold to investors in Hong Kong shall not be more than 50% of the value of the Fund's total assets.

The Fund Manager is registered and operates in Mainland China in accordance with Mainland China laws and regulations and is licensed by the CSRC to manage publicly offered securities investment funds.

Bank of China Limited, the Fund Custodian of the Fund, is qualified to act as custodian for publicly offered securities investment funds pursuant to Mainland China laws and regulations. Following SFC authorisation, if the Fund ceases to meet the requirements prescribed by the SFC from time to time, the Fund Manager shall notify the SFC immediately. The Fund may not continue to be marketed to the public in Hong Kong and may not accept new subscriptions.

Investors should note that, when the value of Fund Units sold to investors in Hong Kong is approaching the 50% limit mentioned in sub-paragraph (g) above, the Fund should notify the SFC in writing immediately, and suspend subscription or apply a fair arrangement to apportion subscription orders until the 50% limit is reached. In these circumstances, there is a risk that Hong Kong investors may not be able to subscribe for the number of Fund Units they desire (or not able to subscribe for any Fund Units at all). For the avoidance of doubt, even if the 50% limit is reached, Fund Unitholders in Hong Kong can continue to hold their existing Fund Units and such Fund Units will not be compulsorily redeemed.

HONG KONG REPRESENTATIVE

The Hong Kong Representative is China Asset Management (Hong Kong) Limited. The Hong Kong Representative has been appointed by the Fund Manager in accordance with the Code on Unit Trusts and Mutual Funds (the “**Code**”).

Contact details of the Hong Kong Representative:

Address: 37/F, Bank of China Tower, 1 Garden Road, Hong Kong

Telephone: (852) 3406 8686

SERVICES TO FUND UNITHOLDERS

Without prejudice to the principle of equal treatment for Mainland and Hong Kong investors, some of the services mentioned in the prospectus may not be available to Hong Kong investors (for example, (a) information relating to Class A Units which will not be offered to Hong Kong investors, (b) the sub-section headed “(I) Sales Institutions” listed under “V. Relevant Service Agencies” and services listed under “XXII. Services to Fund Unitholders” of the Prospectus). Hong Kong investors should check with authorised distributors for further details. Different authorised distributors may provide different types of services associated with investment in the Fund. Please check with the respective authorised distributors for details.

ENQUIRIES AND COMPLAINTS

Investors may contact the Hong Kong Representative for any queries or complaints in relation to the Fund at the Hong Kong Representative’s address or by phone as set out in the section headed “Hong Kong Representative” or by electronic mail at hkfund_services@chinaamc.com.

Following receipt of any general enquiries or complaints, the Hong Kong Representative will handle or channel to the relevant party any enquiries or complaints from investors and revert to the investors accordingly in a timely manner.

FURTHER INFORMATION

Investors may access the website of the Hong Kong Representative at <http://www.chinaamc.com.hk/> for further information on the Fund, including the offering documents and the financial reports and latest Net Asset Value per Unit and notices. Please note that this website has not been reviewed by the SFC.

SCHEMES NOT AUTHORISED BY SFC

In relation to fund(s) as set out in the Prospectus, the Fund is authorized by the SFC for offering to the public in Hong Kong pursuant to section 104 of the SFO.

Warning: Please note that the other fund(s) mentioned in the Prospectus may not be authorized by the SFC for offering to the public in Hong Kong. It is an offence to offer any of these funds which have not been authorized by the SFC to the public in Hong Kong unless an exemption under section 103 of the SFO applies. Intermediaries should take note of this.

CHANGES AND NOTIFICATION

Changes to the Fund will be made in accordance with the applicable Mainland China laws and regulations and the provisions of the Fund's constitutive documents. Such changes shall be effective upon approval by the CSRC or compliance with the appropriate procedures in Mainland China, and thereafter, the changes shall be submitted to the SFC for filing.

Changes that concern the eligibility of the Fund under the MRF arrangement (e.g. changes in investment objective, investment strategy or key operators) will generally require the SFC's prior approval.

Further, changes affecting Hong Kong investors only (e.g. change of Hong Kong representative) may be subject to the SFC's prior approval pursuant to the applicable requirements under the Code.

Fund Unitholders will be notified of the changes pursuant to applicable regulatory requirements. In general, notices (in both English and traditional Chinese) in relation to changes that affect Hong Kong investors will be posted on the Hong Kong Representative's website at <http://www.chinaamc.com.hk/>. Please note that this website has not been reviewed by the SFC.

The Fund Manager shall take reasonable steps and measures to ensure that notices affecting investors in both the Mainland China and Hong Kong are dispatched to investors in the Mainland China and Hong Kong at the same time.

INVESTMENT OBJECTIVES AND STRATEGIES

Investors' attention is drawn to the investment objectives, strategies and other details on the Fund's investments in the section headed "X. Investments of the Fund" of the Prospectus and the Product Key Facts Statement.

Objectives

The investment objective of the Fund is to seek to minimise losses to the assets of the Fund whilst maximising the absolute return every year.

Strategy

The Fund may invest in the financial instruments with good liquidity, including stocks (including depositary receipts), bonds, warrants, asset-backed securities publicly issued and listed within China according to the relevant laws and other financial instruments permitted by the CSRC. Bonds include but are not limited to treasury bonds, financial bonds and corporate bonds (including convertible bonds) by Mainland Chinese issuers.

The Fund is a mixed fund primarily investing (i.e. at least 80% of its Net Asset Value) in both equity and debt securities. The equity investment of the Fund may not exceed 95% of its net asset value and shall focus on value stocks, while the debt investment of the Fund shall focus on treasury bonds, financial bonds and enterprise (corporate) bonds (including convertible bonds) with credit rating of BBB or above being rated by any of the Mainland Chinese credit rating agencies (or guaranteed by the institution with high credit rating or collateralized by high quality assets). Cash and government bonds with maturity less than one year should not be less than 5% of the Net Asset Value of the Fund.

The Fund may invest in urban investment bonds and asset-backed securities. The Fund currently does not intend to invest in debt securities rated BBB- or below by a Mainland Chinese credit rating agency or unrated.

In pursuing value strategy for equity investments, the Fund will select equity securities for which:

- (i) the market capitalisation reaches or exceeds RMB 2 billion and the free float market capitalisation reaches or exceeds RMB 800 million; and/or
- (ii) the price earning ratio (P/E ratio) is lower than the market average, and in particular, the P/E ratio after adjustment for the company's future business development growth rate is relatively low.

The Fund will maximize the return on debt investment through sector allocation, as well as, management of yield curve and duration.

The Fund currently does not intend to invest in any financial derivative instruments including warrants for investment purposes. Where the Fund invests in financial derivative instruments, such instruments will be used for hedging purposes only. If there is a change in such intention, prior regulatory approval, if required, will be sought and where necessary, Fund Unitholder's approval will be obtained. Also, at least one month's prior notice will be given to Fund Unitholders.

The Fund may be leveraged by way of borrowing, margin facilities/financing, repurchase transactions, reverse repurchase transactions, other similar transactions or otherwise. The level of total leverage will not exceed 40% of the Net Asset Value of the Fund.

ADDITIONAL DISCLOSURE ON SECURITIES LENDING AND/OR REPURCHASE/ REVERSE REPURCHASE TRANSACTIONS

The Fund does not currently intend to engage in securities lending.

Provided that the minimum investment requirements for meeting the Fund's investment objectives and strategy and the other applicable regulatory requirements are complied with, the Fund may enter into repurchase transactions on the exchange market and interbank market in Mainland China for up to 40% of the Fund's Net Asset Value, and is not subject to any limit when entering into reverse repurchase transactions in the exchange market and interbank market in Mainland China.

The Fund will only enter into pledged repurchase/reverse repurchase transactions (i.e. ownership of the underlying bonds as collaterals will not be transferred to the other party due to the reason that the underlying bonds will be in the custody of the securities clearing institution until the repayment of the agreed amount in cash is made) on both the exchange market and the interbank market in Mainland China.

(A) Exchange Market

In respect of repurchase/reverse repurchase transactions carried out on the exchange market in Mainland China, all such transactions are centrally cleared and settled with the China Securities Depository and Clearing Corporation Limited ("CSDC") which in effect, acts the sole counterparty to such transactions.

Where the Fund enters into a repurchase transactions, the Fund will receive cash (i.e. borrowed cash) and pledge bond as collateral in favour of the CSDC which will be placed under custody of the CSDC.

With respect to a reverse repurchase transaction, the Fund will pay cash (i.e. lent out cash) to the CSDC and is subject to the counterparty risk of the CSDC and the bond collateral pledged by the counterparty will be placed under custody and in favour of the CSDC.

The stock exchanges determine the types of bonds which may be used as collateral. In general, collateral may include government bonds, local government bonds and/or corporate bonds with a credit rating of AA or above as rated by a Mainland Chinese credit rating agency. The stock exchanges also provide prescribed haircut rates for different types of bonds. Collateral is held in a securities custodian account of the CSDC and is marked to market on a daily basis. Where the value of collateral falls below the secured amount, the relevant participant participating in the relevant transaction is required to deliver additional collateral, failing which the CSDC has the right to dispose of the existing collateral securities and collect any outstanding amount from the defaulting participant.

(B) Interbank Market

Where the Fund carries out repurchase/reverse repurchase transactions in the interbank market in Mainland China, the counterparties should be (a) commercial banks, (b) insurance companies, (c) fund management companies, or (d) reputable and financially sound securities companies. If any of such companies has have been subject to any regulatory investigations, sanctions or deteriorating financial situation, any default in the past, the Fund Manager shall not select these companies as the counterparty. The Fund Manager shall review the list of counterparties regularly so as to minimize the counterparty risk.

In a repurchase transaction, the Fund will receive cash (i.e. borrowed cash) and pledge bond as collateral in favour of the counterparty which will be received by and kept under custody of Shanghai Clearing House (“SHCH”) or China Central Depository & Clearing Co., Ltd. (“CCDC”).

With respect to a reverse repurchase transaction, the Fund will pay cash (i.e. lent out cash) to the counterparty and the bond collateral pledged by the counterparty will be received by and kept under custody of SHCH or CCDC in favour of the Fund.

Where the Fund enters into reverse repurchase transactions on the interbank market, collateral acceptable to the Fund may consist of government bonds, local government bonds, central bank bills, commercial bank bonds and/or credit bonds (including non-bank financial institution bonds, corporate bonds, commercial papers and/or mid-term notes) with a credit rating of AA or above as rated by a Mainland Chinese credit rating agency. Unlike the reverse repurchase transactions on exchange market, the collateral will not be marked to market daily. The transactions entered into on the interbank market are generally on a short-term basis to mitigate the market risk on collateral taken.

Cash received by the Fund from repurchase transactions will be used for liquidity management and re-investment.

Given the bonds received as collaterals from reverse repurchase transactions will be placed under the custody of CSDC, SHCH or CCDC, there will be no re-investment of collaterals and the Fund will not use them as collaterals of other repurchase transactions to acquire cash.

Any incremental income generated will be credited to the account of the Fund after deducting any transaction fees charged by parties such as stock exchanges and clearing institutions. In respect of any repurchase/reverse repurchase transactions carried out with or through a connected person of the Fund Manager or the Fund Custodian, no fee shall be retained by such party.

RISK FACTORS

Investors should refer to the section headed “XVIII. Risk Factors” of the Prospectus as are relevant to investment in the Fund and the following additional information in respect of the risks associated with investing in the Fund:

1. Investment risk

- The Fund invests in equity securities and these securities may fall in value. Investors may suffer losses as a result. The Fund is not principal guaranteed and the purchase of its Fund Units is not the same as investing directly in equity securities.
- The Fund also invests in debt securities and these securities may fall in value. Investors may suffer losses as a result. The Fund is not principal guaranteed and the purchase of its Fund Units is not the same as investing directly in debt securities or placing RMB funds on deposit with a bank.
- There is also no guarantee of payment of dividends or distributions. Further, there is no guarantee that the Fund will be able to achieve its investment objectives and there is no assurance that the stated strategies can be successfully implemented.

2. Risks associated with the MRF arrangement

- *Quota restrictions:* The Mainland-Hong Kong Mutual Recognition of Funds (MRF) scheme is subject to an overall quota restriction. Subscription of Fund Units may be suspended at any time if such quota is used up.
- *Failure to meet eligibility requirements:* If the Fund ceases to meet any of the eligibility requirements under the MRF, it may not be allowed to accept new subscriptions. In the worst scenario, the SFC may even withdraw its authorisation for the Fund to be publicly offered in Hong Kong for breach of eligibility requirements. There is no assurance that the Fund can satisfy these requirements on a continuous basis.
- *Mainland China tax risk:* Currently, certain tax concessions and exemptions are available to the Fund and/or its investors under the MRF regime. There is no assurance that such concessions and exemptions or Mainland China tax laws and regulations will not change. Any change to the existing concessions and exemptions as well as the relevant laws and regulations may adversely affect the Fund and/or its investors and they may suffer substantial losses as a result.
- *Different market practices:* Market practices in the Mainland China and Hong Kong may be different. In addition, operational arrangements of the Fund and other public funds offered in Hong Kong may be different in certain ways. For example, subscription or redemption of Fund Units may only be processed on a day when both Mainland China and Hong Kong markets are open, or it may have different cut-off times or dealing day arrangements versus other SFC-authorized funds. Investors should ensure that they understand these differences and their implications.

3. Concentration risk / Mainland China market risk

- The Fund invests primarily in securities related to the Mainland China market and may be subject to additional concentration risk. Investing in Mainland China market may give rise to different risks including political, policy, tax, economic, foreign exchange, legal, regulatory and liquidity risks.

4. RMB currency and conversion risks

- RMB is currently not freely convertible and is subject to exchange controls and restrictions.
- Non-RMB based investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of RMB could adversely affect the value of investor's investment in the Fund.
- Investors may not receive RMB upon redemption of investments and/or dividend payment or such payment may be delayed due to the exchange controls and restrictions applicable to RMB.

5. Mainland China equity risk

- *Market risk:* The Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.
- *Volatility risk:* High market volatility and potential settlement difficulties in the Mainland China equity markets may also result in significant fluctuations in the prices of the securities traded on such markets and thereby may adversely affect the value of the Fund.
- *Policy risk:* Securities exchanges in Mainland China typically have the right to suspend or limit trading in any security traded on the relevant exchange. The government or the regulators may also implement policies that may affect the financial markets. All these may have a negative impact on the Fund.
- *Risk associated with small-capitalisation / mid-capitalisation companies:* The stock of small-capitalisation / mid-capitalisation companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.
- *High valuation risk:* The stocks listed on the Mainland China stock exchanges may have a higher price-earnings ratio. Therefore, such high valuation may not be sustainable.
- *Liquidity risk:* Securities markets in Mainland China may be less liquid than other developed markets. The Fund may suffer substantial losses if it is not able to dispose of investments at a time it desires.
- *Depository receipt risk:* Depository receipts are instruments that represent shares in companies trading outside the markets in which the depository receipts are traded. Accordingly the depository receipts invested by the Fund may be subject to the risks inherent to such underlying shares. Depository receipts may also be subject to counterparty or custody risk, in which a significant or even total loss might be suffered in the event of the liquidation of the depository or custodian bank.

6. Mainland China debt securities risk

- *Volatility and liquidity risks:* The Mainland China debt securities markets may be subject to higher volatility and lower liquidity compared to more developed markets. The prices of securities traded in such markets may be subject to fluctuations.
- *Counterparty risk:* The Fund is exposed to the credit/default risk of issuers of the debt securities that the Fund may invest in.
- *Interest rate risk:* Investment in the Fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.

- *Downgrading risk:* The credit rating of a debt instrument or its issuer may subsequently be downgraded. In the event of such downgrading, the value of the Fund may be adversely affected. The Manager may or may not be able to dispose of the debt instruments that are being downgraded.
- *Credit rating agency risk:* The credit appraisal system in Mainland China and the rating methodologies employed in Mainland China may be different from those employed in other markets. Credit ratings given by Mainland China rating agencies may therefore not be directly comparable with those given by other international rating agencies.
- *Risk associated with urban investment bonds:* The Fund may invest in urban investment bonds. Urban investment bonds are issued by local government financing vehicles (“LGFVs”), such bonds are typically not guaranteed by local governments or the central government of Mainland China. In the event that the LGFVs default on payment of principal or interest of the urban investment bonds, the Fund could suffer substantial loss and the Net Asset Value of the Fund could be adversely affected.
- *Risk associated with asset-backed securities:* The Fund may invest in asset-backed securities which may be highly illiquid and prone to substantial price volatility. These instruments may be subject to greater credit, liquidity and interest rate risk compared to other debt securities. They are often exposed to extension and prepayment risks and risks that the payment obligations relating to the underlying assets are not met, which may adversely impact the returns of the securities.

7. Risks relating to repurchase/reverse repurchase transactions

- The Fund Manager may enter into repurchase transactions for the account of the Fund. For repurchase transaction, the Fund may suffer substantial loss as there may be delays and difficulties in recovering collateral pledged with the counterparty or the cash originally received may be less than the collateral pledged with the counterparty due to inadequate valuation of the collateral and market movements upon default of the counterparty.
- The Fund Manager may enter into reverse repurchase transactions for the account of the Fund. The collateral pledged under the reverse repurchase transactions in the interbank market may not be marked to market. In addition, the Fund may suffer substantial loss when engaging in reverse repurchase transactions as there may be delays and difficulties in recovering the cash placed out or realizing the collateral, or proceeds from the sale of the collateral may be less than the cash placed with the counterparty due to inadequate valuation of the collateral and market movements upon default of the counterparty.

8. Risks associated with distributions out of capital

- Distributions may be paid out of the capital of the Fund. The Fund Manager may at its discretion make distributions from capital or gross income while charging/paying all or part of the Fund’s fees and expenses to/ out of the capital of the Fund. Fund Unitholders should note that the distributions paid out of capital or effectively out of capital amount to a return or withdrawal of part of a Fund

Unitholder's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of distributions out of the Fund's capital or (as the case may be) payment of distributions effectively out of the Fund's capital may result in an immediate reduction of the Net Asset Value per Unit.

9. Substantial redemption risk

- Substantial redemptions of Fund Units may require the Fund Manager to liquidate investments of the Fund rapidly which would adversely affect the Net Asset Value of the Fund and may result in suspension of redemption or delay in redemption proceeds in the worst case. In any event, the payment of redemption proceeds will be made within 20 days upon the receipt of the properly documented redemption requests.

10. Taxation risk

- Investors should note specific uncertainty in tax position and tax risks relating to potential tax liabilities on income and gains that arise from investing in, holding or disposing of Fund Units in the Fund. Changes in tax regulations and/or tax provisioning policy of the Fund will impact investors. Investors may be advantaged or disadvantaged depending upon whether and how the gains arising from the disposal of Fund Units and distributions from the Fund will ultimately be taxed and when the investors invest in the Fund. There are certain risks relating to the Mainland China tax regime and FATCA, as further described in the section below headed "Taxation".

CLASSES OF FUND UNITS FOR HONG KONG INVESTORS

Only Class H Units are available to Hong Kong investors. Hong Kong investors should pay attention to the details and specific features of such Class H Units as disclosed in this Hong Kong Covering Document. If there are inconsistencies with the Prospectus concerning any information about Class H Units, the disclosure in this Hong Kong Covering Document shall prevail.

Class H Units are denominated in Renminbi (RMB). The initial issue price per Fund Unit of Class H Units will be the Net Asset Value per Unit of Class A Units on the Hong Kong Dealing Day on which Class H Units are initially issued.

The Net Asset Value per Unit for Class H Units is calculated after the market closes by dividing the Net Asset Value for Class H Units by the total number of Class H Units on every Hong Kong Dealing Day (see definition below).

Dealing in Class H Units will be in accordance with the procedures set out below under "Dealing and Settlement Procedures in Hong Kong" section of this document.

DEALING AND SETTLEMENT PROCEDURES IN HONG KONG

For Hong Kong investors, the details on the minimum initial investment, minimum subsequent investment, minimum redemption and the minimum holding in respect of the Fund are set out below:

Minimum initial investment	Minimum subsequent investment	Minimum redemption	Minimum holding
RMB1,000	RMB1,000	Nil	RMB0.01

For the purpose of dealing in Fund Units through the authorised distributors, a “**Hong Kong Dealing Day**” shall mean a Business Day (as defined in the Prospectus) on which banks in Hong Kong and the PRC are also open for normal banking business. Where as a result of a number 8 typhoon signal, black rainstorm warning or other similar event, the period during which banks in Hong Kong and PRC are open on any day is reduced, such day shall not be a Hong Kong Dealing Day unless the Fund Manager determines otherwise.

Subscription and redemption of Fund Units in Hong Kong take place on each Hong Kong Dealing Day, except where there is a suspension of the issuance and/or redemption of Fund Units (for further details see the sub-section headed “Suspension of Valuation and Dealing”).

Subscription Procedures

Applications by Hong Kong investors may be sent to the authorised distributors appointed to distribute Fund Units in Hong Kong. The authorised distributors will forward the subscription requests to the Hong Kong Representative or service provider(s) to be appointed by it from time to time which will in turn consolidate and forward such requests to the Registrar, which is responsible for handling registration and settlement of Class H Units.

To purchase Fund Units at the Net Asset Value per Unit on a Hong Kong Dealing Day (calculated after the close of business in the relevant market on the relevant Hong Kong Dealing Day), investors should complete and return the application form which is available from the authorised distributors. Where a properly documented subscription request is received by an authorised distributor on or before 3:00 p.m. (Hong Kong time) on the relevant Hong Kong Dealing Day (“**Subscription Deadline**”), Fund Units are usually allotted within 1 Hong Kong Dealing Day after the relevant request is accepted, whereupon a confirmation note will be issued to the relevant authorised distributor which will then forward such confirmation note to investors. If an application for Fund Units is received after the Subscription Deadline in respect of a Hong Kong Dealing Day then the application will be held over until and processed on the next Hong Kong Dealing Day.

Investors must pay subscription proceeds fully to the authorised distributor in cleared funds at the time the subscription request is submitted. Otherwise, the subscription request will be considered invalid and will not be processed by the Hong Kong Representative. Any late subscription proceeds will be refunded to the investor (without interest after deduction of any bank charges incurred).

Notwithstanding the foregoing, individual authorised distributors may have different dealing arrangements and procedures (including supporting documents and means of transmission of dealing requests) that must be complied with when Fund Units are acquired through such distributors. Investors should consult with the authorised distributors for the dealing procedures applicable to dealing through such authorised distributors. Authorised distributors may impose earlier dealing deadlines for receiving instructions for subscriptions. Investors should pay attention to the arrangements of the authorised distributors concerned. In addition, there may be changes to the dealing and cut-off time arrangements as a result of market events. Investors should inquire with the Hong Kong Representative or the authorised distributors for the related dealing and cut-off time arrangements.

The number of Fund Units allotted will be calculated by dividing subscription proceeds (net of subscription fee) by the Net Asset Value per Unit on the relevant Hong Kong Dealing Day.

Hong Kong investors may not switch from the Fund to other Fund Unit Class(es) of the Fund or any other investment funds that have not been authorised by the SFC.

Redemption Procedures

A Hong Kong Fund Unitholder who wishes to request a redemption of the whole or any part of his holding of Fund Units may submit his request to the authorised distributor through which Fund Units were acquired. The authorised distributors will forward the redemption requests to the Hong Kong Representative or service provider(s) to be appointed by it from time to time which will in turn consolidate and forward such requests to Registrar, which is responsible for handling registration and settlement of Class H Units.

Fund Units will be redeemed at the Net Asset Value per Unit on a Hong Kong Dealing Day (calculated after the close of business in the relevant market on the relevant Hong Kong Dealing Day).

Where a properly documented redemption request for Class H Units at the Net Asset Value as of a Hong Kong Dealing Day is received by an authorised distributor on or before 3:00 p.m. (Hong Kong time) on the relevant Hong Kong Dealing Day (“**Redemption Deadline**”), Fund Units are usually redeemed within 1 Hong Kong Dealing Day after the relevant request is accepted, whereupon the relevant authorised distributor will arrange for payment of redemption proceeds to the redeeming Fund Unitholder. If an application for redemption of Fund Units is received after the Redemption Deadline in respect of a Hong Kong Dealing Day then the application will be held over until and processed on the next Hong Kong Dealing Day.

Notwithstanding the foregoing, individual authorised distributors may have different dealing arrangements and procedures (including supporting documents and means of transmission of dealing requests) that must be complied with when Fund Units are redeemed through such distributors. Investors should consult with the authorised distributors for the dealing procedures applicable to dealing through such authorised distributors. Authorised distributors may impose earlier dealing deadlines for receiving instructions for redemption. Investors should pay attention to the arrangements of the authorised distributors concerned. In addition, there may be changes to the dealing and cut-off time arrangements as a result of market events. Investors should inquire with the Hong Kong Representative or the authorised distributors for the related dealing and cut-off time arrangements.

The redemption proceeds to be paid will be calculated by multiplying the number of redeemed Fund Units by the Net Asset Value per Unit on the relevant Hong Kong Dealing Day with redemption fee deducted from the amount payable to redeeming Fund Unitholder.

If, after redemption, a Fund Unitholder would be left with a balance of Fund Units having a value of less than the minimum holding, the Fund Manager may deem this pending redemption instruction to be a request for redemption of the full balance of the Fund Unitholder’s holding of Fund Units. In other words, the remaining Fund Units will be compulsorily redeemed and this compulsory redemption will be processed without consent of or notification to the investors.

Settlement

Payment of the subscription monies must be made at the time of application. Payment must

be made in RMB. If payment is made in any other currency, the authorised distributors may in its discretion arrange for the necessary foreign exchange transactions (at prevailing market exchange rates, i.e. the market exchange rate applied by the bank at the relevant time of currency conversion) before the subscription request is forwarded to the Registrar on that Hong Kong Dealing Day. Currency conversion is subject to the availability of RMB and investors may be exposed to currency risks. All bank charges will be borne by the applicant. Investors should check with the authorised distributors for further details.

No money should be paid to any intermediary in Hong Kong who is not licensed or registered to carry on the Type 1 (dealing in securities) regulated activity under Part V of the Securities and Futures Ordinance.

Proceeds from redemption will be paid in RMB to the registered Fund Unitholder by telegraphic transfer usually within 7 Hong Kong Dealing Days of proper receipt by the Hong Kong Representative of the documents necessary to complete the redemption.

Please note that payment of redemption proceeds may be deferred in the circumstances as set out in the sub-section headed "(XII) Rejection or Suspension of Subsequent Subscription and Suspension of Redemption and the Relevant Treatment" under the section headed "VIII. Subsequent Subscription, Redemption and Switching of Units" of the Prospectus. In these circumstances, the extended time frame for the payment of redemption proceeds shall reflect the additional time needed in light of the specific situations and the redemption proceeds will be made to the Fund Unitholders as soon as practicable. In any event, the payment of redemption proceeds will be made within 20 days upon the receipt of the properly documented redemption requests.

For dealing in Fund Units through authorised distributors investors are advised to obtain information on settlement from the authorised distributors concerned.

Changes to Information and Anti-money Laundering Checks

If there is any change in the information contained in a Fund Unitholder's application form or the Fund Unitholder's personal information or details, the Fund Unitholders should notify the Hong Kong Representative or authorised distributors (who in turn will notify the Fund Manager) in writing of any such change and furnish the Hong Kong Representative with such additional documents relating to such change as the Hong Kong Representative or the Fund Manager may request.

In the event of delay or failure to produce any documents or information required for verification of identity or legitimacy of subscription monies, the Fund Manager, the Fund Custodian and/or the Hong Kong Representative may refuse to accept an application and the subscription moneys relating thereto. Further, they may delay in paying any redemption proceeds if a Fund Unitholder delays in producing or fails to produce any documents or information required for the purposes of verification of identity, and may refuse to make payment to a Fund Unitholder if either of them suspects or is advised that (i) such payment may result in a breach or violation of any anti-money laundering law or other laws or regulations by any person in any relevant jurisdiction; or (ii) such refusal is necessary or appropriate to ensure compliance with any such laws or regulations in any relevant jurisdiction.

NOMINEE ARRANGEMENTS AND FUND UNITHOLDERS' MEETINGS

For Hong Kong investors, the holding of Fund Units will be through the relevant authorised

distributors. As such, the authorised distributor will act as nominee and be recorded as the holder of the relevant Fund Units by the Registrar. Therefore, the underlying investors will not be recorded as the holder of the relevant Fund Units.

Each authorised distributor is expected to keep a record of the underlying holders on behalf of whom it holds Fund Units.

Because of the nominee arrangement, the relevant authorised distributor will be recorded as holder on the register of the Fund (“**nominee account holder**”), and it will be entitled to exercise the rights as a holder of Fund Units (including but not limited to voting rights, the right to take legal action against the Fund Manager and Fund Custodian), instead of the individual underlying investors.

The Fund Manager will communicate details of all Fund Unitholders’ meetings such as meeting date, time and the resolutions relating to the Fund to the nominee account holders who are expected to further notify Hong Kong investors of such details, together with the voting arrangements, as soon as practicable. Hong Kong investors may vote by giving instructions to the nominee account holders. The nominee account holders will consolidate the voting instructions from Fund Unitholders and submit such voting instructions to the Fund Manager. These instructions will be processed pursuant to the provisions of the Fund Contract.

Investors must comply with the arrangements and deadlines specified by their authorised distributors, in order to participate in the voting process in Fund Unitholders’ meetings. Hong Kong investors may vote by giving instructions to the nominee account holders.

Hong Kong investors should consider the above and understand the difference in position as a result of holding Fund Units by way of a nominee arrangement. In particular, Hong Kong investors will exercise their rights in the Fund through a nominee, whereas Mainland China investors holding Fund Units directly are entitled to exercise their rights in the Fund directly.

NET ASSET VALUE

Publication of the Net Asset Value per Unit

The Net Asset Value per Unit shall be made available on each Hong Kong Dealing Day on the website of the Hong Kong Representative at <http://www.chinaamc.com.hk/> in accordance with the section headed “XVII. Information Disclosure of the Fund” of the Prospectus. Please note that this website has not been reviewed by the SFC.

Swing Pricing Mechanism

In the event of a substantial subscription or redemption of Fund Units, the Fund Manager may adopt a swing pricing mechanism to ensure the fairness of the valuation of the Fund in accordance with the section headed “VIII. Subsequent Subscription, Redemption and Switching of the Units” and “XIII. Valuation of Assets of the Fund”.

Suspension of Valuation and Dealing

Any suspension of the determination of the Net Asset Value of the Fund and the subscription or redemption of Fund Units will be announced as soon as practicable on the website of the Hong Kong Representative at <http://www.chinaamc.com.hk/> in accordance with and under the circumstances as described in the section headed “VIII. Subsequent Subscription, Redemption and Switching of the Units” of the Prospectus. Please note that this website has

not been reviewed by the SFC. For any suspension or deferral of dealings of the Fund requiring notification to the CSRC, the SFC shall also be notified correspondingly.

DISTRIBUTION POLICY

With respect to Class H Units, investors should refer to the section “XIV. Allocation of Fund Income” of the Prospectus for the distribution policy. Investors should note that there is no guarantee of regular distribution and (if distribution is made) the amount being distributed.

The Fund Manager may at its discretion pay distributions out of the capital of the Fund or pay distributions out of gross income while charging / paying all or part of the Fund’s fees and expenses to / out of the capital of the Fund. Where distributions are paid out of gross income while charging/ paying all or part of the Fund’s fees and expenses to/ out of the capital of the Fund, this will result in an increase in distributable income for the payment of distributions by the Fund and therefore, the Fund may effectively pay distributions out of capital.

Compositions of the distributions (if any) (i.e. the relative amounts paid out of (i) net distributable income and (ii) capital) for the last 12 months would be made available by the Hong Kong Representative on request and also on the Hong Kong Representative’s website at www.chinaamc.com.hk. Please note that this website has not been reviewed by the SFC. Fund Unitholders should be aware of the effects of making distributions out of capital and pay attention to the relevant risk disclosures as set out in the “Risks associated with distributions out of capital” sub-section under the “Risk Factors” section of this document. The Fund Manager may amend the distribution policy subject to prior regulatory approval and by giving not less than one month’s prior notice to Fund Unitholders in Hong Kong.

FEES AND EXPENSES

In dealing in the Class H Units of the Fund, Hong Kong investors are charged a subscription fee of up to 5% of the subscription price of each Class H Unit subscribed and a redemption fee of 0.125% of the redemption price of each Class H Unit redeemed. The Subscription Fee will be retained by the authorised distributor. The Redemption Fee will be retained by the Fund.

The attention of prospective investors is drawn to details of the fees and expenses relating to the Fund as set out in the section headed “XV. Expenses and Taxes of the Fund” of the Prospectus.

TAXATION

Investors may refer to the Prospectus for more information on the possible tax implications. Investors should inform themselves of, and where appropriate consult their professional advisors on, the possible tax consequences of subscribing for, holding, switching, redeeming of Fund Units under the laws of their country of citizenship, residence, or domicile or incorporation.

Mainland China

(a) Taxation for Investors

On 18 December 2015, the Ministry of Finance, the State of Administration of Taxation and the CSRC jointly released the Caishui [2015] No.125 (the “**Notice**”) which specifies the

Mainland China taxation for investments in Mainland China securities investment funds under MRF (“**Recognised Mainland Funds**”) by Hong Kong investors or investors in Hong Kong (“**Hong Kong Investors**”) with effect from 18 December 2015, and as set out below:

Corporate Income Tax (“CIT”) and Individual Income Tax (“IIT”)

Income derived from disposal gains of Recognised Mainland Funds by Hong Kong Investors is temporarily exempt from CIT and IIT respectively. Hong Kong Investors would not be subject to CIT and IIT respectively on distributions received from the Recognised Mainland Funds.

Value-added Tax (“VAT”)

The Ministry of Finance and the State of Administration of Taxation issued Caishui [2016] No. 36 on 23 March 2016 announcing that the Business Tax to VAT Reform now covers all remaining industries from 1 May 2016, including financial service industry. According to Caishui [2016] No. 36, VAT is exempted on the capital gains realised by both corporate and individual investors in Hong Kong from trading of units of Recognised Mainland Funds.

Stamp Duty

Mainland China Stamp Duty is temporarily not payable by Hong Kong Investors for the subscription, redemption, purchase, sales, transfer or inheritance of units/shares of Recognised Mainland Funds.

(b) Taxation for Mainland China Securities Investment Fund

Pursuant to Caishui [2008] No. 1, gains realized from the trading of Mainland China shares and bonds, dividends from Mainland China shares, interest from Mainland China bonds and other income by Mainland China securities investment fund shall be temporarily exempted from CIT.

Pursuant to the Notice, income tax will be withheld at the rates of 10% and 7% respectively for dividends and interests declared by the Mainland China issuers to Recognised Mainland Funds on the portion of dividends and interests attributable to Hong Kong Investors.

In addition, sale of A-Shares and B-Shares (“**Mainland Shares**”) is subject to Mainland China stamp duty at a rate of 0.1% of the total proceed. However, the purchase of Mainland Shares is not subject to PRC Stamp Duty.

Further, VAT is exempted on the capital gains realised by the manager of security investment fund (for both close-ended and open-ended security investment funds) from trading of shares and bonds according to Caishui [2016] No.36. Moreover, coupon interests from government bonds and municipal local government bonds received by Mainland China security investment fund are exempt from VAT.

Recently the PRC Ministry of Finance (“MOF”) and the State Administration of Taxation (“SAT”) jointly issued Caishui [2016] No. 70, which is a supplementary notice to Caishui [2016] No. 36 concerning the financial industry. According to Caishui [2016] No. 70, coupon interests from holding of financial bonds (i.e. bonds issued by PRC incorporated financial institutions in the inter-bank bond market or exchange market) by Mainland China securities investment funds are exempted from VAT. However, such exemption is technically not applicable to interest derived from bonds other than the aforesaid. Hence interest income from bonds other than the aforesaid may be subject to VAT at 6%.

If VAT is applicable, there are also other surtaxes (which include urban construction and maintenance tax, education surcharge and local education surcharge) that would amount to as high as 12% VAT payable.

Various tax reform policies have been implemented by the Mainland China government in recent years, and existing tax laws and regulations may be revised or amended in the future. There is no assurance that current tax exemptions or incentives will not be abolished in the future. Investors should seek their own tax advice on their Mainland China tax position with regard to their investment in the Recognised Mainland Fund. There is also a possibility that the tax regulations and practice in Mainland China may be changed with retrospective effect. Such changes may impact the tax provisioning policy and tax position of the Fund, and could have a material adverse impact on the NAV of the Fund, thereby causing significant losses to investors. Investors may be advantaged or disadvantaged depending upon the final tax liabilities, the level of provision and when they subscribed and/or redeemed their Units.

Hong Kong

Under current law and practice in Hong Kong, during such time as the Fund remains authorised by the SFC, it is not expected to be subject to any Hong Kong profits tax arising from the carrying on of its activities as described in the Prospectus and this Hong Kong Covering Document. Except as mentioned below, Fund Unitholders will not be subject to any Hong Kong tax on distributions from the Fund or on capital gains realised on the sale of any Fund Unit.

If the acquisition and redemption of Fund Units is or forms part of a trade, profession or business carried on in Hong Kong, gains realised by the relevant Fund Unitholder may attract Hong Kong profits tax. No Hong Kong stamp duty will be payable on the issue or transfer of Fund Units.

Foreign Account Tax Compliance Act

Sections 1471 – 1474 (referred to as “**FATCA**”) of the U.S. Internal Revenue Code of 1986, as amended (“**IRS Code**”) imposes rules with respect to certain payments to non-United States persons, such as the Fund, including interest and dividends from securities of U.S. issuers and gross proceeds from the sale of such securities. All such payments may be subject to withholding at a 30% rate, unless the recipient of the payment satisfies certain requirements intended to enable the U.S. Internal Revenue Service (“**IRS**”) to identify United States persons (within the meaning of the IRS Code) with interests in such payments. To avoid such withholding on payments made a foreign financial institution (an “**FFI**”), such as the Fund (and, generally, other investment funds organised outside the U.S.), generally will be required to enter into an agreement (an “**FFI Agreement**”) with the U.S. IRS under which it will agree to identify its direct or indirect owners who are United States persons and report certain information concerning such persons to the U.S. IRS.

In general, an FFI which does not sign an FFI Agreement or is not otherwise exempt will face a punitive 30% withholding tax on all “withholdable payments” derived from U.S. sources, including dividends, interest and certain derivative payments made on or after 1 July 2014. In addition, starting from 1 January 2019, gross proceeds such as sales proceeds and returns of principal derived from stocks and debt obligations generating U.S. source dividends or interest will be treated as “withholdable payments.”

Recognising that there may be legal issues with financial institutions entering into a FFI Agreement with the IRS, many governments have entered or will enter into an Inter-governmental Agreement (“**IGA**”) with the IRS. The PRC government has not entered into a Model 1 IGA with the United States as of the date hereof, although it has substantially negotiated such agreement and has been added to the “white list” countries treated as having a Model 1 IGA in place.

As of the date hereof, the Fund Manager has already registered with the U.S. IRS as a reporting Model 1 FFI and has obtained its Global Intermediary Identification Number. The Fund Manager acts as the sponsoring entity for the Fund. The Fund will rely on the Fund Manager for the purpose of complying with FATCA.

The Fund and the Fund Manager will endeavour to satisfy the requirements imposed under FATCA to avoid any withholding tax. In the event that the Fund is not able to comply with the requirements imposed by FATCA and the Fund does suffer U.S. withholding tax on its investments as a result of non-compliance, the Net Asset Value of the Fund may be adversely affected and the Fund may suffer significant loss as a result.

Each Fund Unitholder and prospective investor should consult with his own tax advisor as to the potential impact of FATCA in its own tax situation.

REPORTS

Audited annual reports incorporating financial statements, unaudited half-yearly reports and quarterly reports shall be made available to each Fund Unitholder in accordance with the section headed “XVII. Information Disclosure of the Fund” of the Prospectus as follows:

Reports	Available Period
Annual reports	Within three months from the end of each year
Semi-annual reports	Within two months from the end of the first half of each year
Quarterly reports	Within 15 Working Days after the end of each quarter

Summary annual reports and summary semi-annual reports are made available to Fund Unitholders at the same time they are published in Mainland China.

The above reports available to Hong Kong investors will be supplemented with such additional information as required under the SFC’s Circular “Mutual Recognition of Funds (MRF) between the Mainland and Hong Kong” (or otherwise required by the SFC from time to time) to be furnished to Hong Kong investors.

Fund Unitholders will be notified as and when the above reports (including summary financial reports) are available. All the above reports (including summary financial reports) shall be made available electronically on <http://www.chinaamc.com.hk/>. Investors should note that the aforesaid website has not been reviewed by the SFC. These reports (including summary financial reports) will be also made available for inspection at the registered office of the Hong Kong Representative.

DOCUMENTS AVAILABLE TO INVESTORS

Copies of the following documents are available for inspection free of charge during normal business hours on weekdays (excluding Saturdays and public holidays) at the registered office of the Hong Kong Representative:-

- i. approval documents of the CSRC for the offering of the Fund
- ii. the Fund Contract of the Fund registered with the CSRC, as amended from time to time;
- iii. the Custody Agreement as referred to in the Prospectus;
- iv. the Prospectus of the Fund registered with the CSRC, this Hong Kong Covering Document and the Product Key Facts Statement, as amended from time to time;
- v. financial reports (including summary financial reports) of the Fund under the above section headed “Reports”;
- vi. legal opinion (issued by Mainland China counsel);
- vii. the Hong Kong Representative Agreement;
- viii. notices and announcements relating to the Fund to Hong Kong investors; and
- ix. such other documents as are set out in the Prospectus to be available for public inspection.

Items (i), (ii), (iii), (v), (vi), (vii) and (ix) will be available simplified Chinese only. Documents set out in items (iv) and (viii) will be available in English and traditional Chinese only.

Investors may request for specific information regarding items (ii) and (v) in English and/or traditional Chinese by submitting a request in writing to the Hong Kong Representative. The Hong Kong Representative will respond to such request as soon as practicable.

Copies of the other documents set out above may be obtained upon payment of a reasonable fee upon request at the registered office of the Hong Kong Representative.

As regards item (iv), the Prospectus of the Fund shall normally be updated every six months; and the Hong Kong Covering Document and the Product Key Facts Statement shall be updated where necessary to reflect corresponding changes.

The offering documents (i.e. item (iv)) and ongoing disclosure of information of the Fund (including notices and financial reports) shall be made available to Mainland and Hong Kong investors at the same time, except for any notice to Mainland investors which is issued only in respect of classes of Fund Units not available in Hong Kong and not relevant to Hong Kong investors, or relate solely to issues that have no impact on Hong Kong investors.

ChinaAMC Return Securities Investment Fund
Prospectus (Updated)

31 May 2024 Announcement

Fund Manager: China Asset Management Co., Ltd.

Fund Custodian: Bank of China Limited

IMPORTANT

ChinaAMC Return Securities Investment Fund (hereinafter referred to the "Fund") has been approved by the China Securities Regulatory Commission (hereinafter referred to as the "CSRC") on 9 July, 2003 in its approval document Zheng Jian Ji Jin Zi [2003] No.86. The Fund Contract of the Fund officially came into effect on 5 September, 2003.

The Fund Manager guarantees that the contents of the Prospectus are true, accurate and complete. The Prospectus has been approved by the CSRC; but the CSRC's approval of the offering of the Fund neither represents its substantive judgement or guarantee on the value and return of the Fund, nor indicates that there is no risk when investing in the Fund

While the Fund invests in the securities markets, the Net Asset Value of the Fund will fluctuate due to factors such as fluctuations in the securities markets. The investors are entitled to the Fund Income as well as undertake the corresponding investment risks according to their unit holdings in the Fund respectively. The risks relating to this Fund include the following: systematic risks arising from political, economic, social and other influences on the prices of securities; non-systemic risks of individual securities; liquidity risk arising from consecutive substantial redemption by Fund Unitholders; active management risk arising from the fund management activities of the Fund Manager; specific risks of the Fund etc. The Fund may invest in depositary receipts, and the net asset value of the Fund may be affected by the price fluctuations of the offshore underlying securities of the depositary receipts, and the risks related to the offshore underlying securities of the depositary receipts may directly or indirectly become the risks of the Fund. The Fund is a securities investment fund with medium risks, and its long-term prospective income and risks on average are higher than bond funds but lower than equity funds. According to the *Measures for the Suitability Management of Securities and Futures Investors* implemented on 1 July, 2017, the Fund Manager and the Sales Institutions have re-evaluated the risk ratings of the Fund. The risk rating conduct does not change the Fund's substantive risk-return characteristics. However, due to changes in the risk classification criteria, the risk level representation of the Fund may change accordingly. The specific risk rating results should be based on the rating results provided by the Fund Manager and the Sales Institutions.

Investment involves risk. Before making subsequent subscription in the Fund, investors should read the Prospectus and the Product Key Facts Statement carefully to obtain a good understanding of the Fund's characteristics regarding risks, returns and the product, and they should consider

carefully whether they can afford to bear the risks, evaluate the market rationally, and make an investment decision cautiously.

The requirements for the preparation, disclosure and renewal of the Product Key Facts Statement shall be implemented one year after the date of implementation of the *Measures on Information Disclosure*.

The Fund's past performance is not indicative of its future performance.

The Fund Manager shall manage and use the assets of the Fund according to the principles of due diligence, honesty, good faith and prudence, but does not guarantee any profits or minimum returns on the Fund.

Investors should carefully read and fully understand the disclaimers and dispute settlement methods as stipulated in the Fund Contract.

The annual update of related financial data and net asset value performance data information contained in the Prospectus is as of 31 March, 2024 , the information of Key Officers is as of 30 May 2024, and other information contained in the Prospectus is as of May 15, 2024. (The financial information in the Prospectus is unaudited)

I. Preface

ChinaAMC Return Securities Investment Fund Prospectus (Updated) (hereinafter referred to as the "Prospectus") is formulated pursuant to the *Securities Investment Fund Law of the People's Republic of China* (hereinafter referred to as the "*Funds Law*"), the *Administrative Measures on Sales of Securities Investment Funds* (hereinafter referred to as the "*Measures on Sales*"), the *Administrative Measures on the Operation of Securities Investment Funds* (hereinafter referred to as the "*Measures on Operation*"), the *Administrative Measures on Information Disclosure of Publicly Offered Securities Investment Funds* (hereinafter referred to as the "*Measures on Information Disclosure*"), the *Regulations on the Management of Liquidity Risk of Publicly Offered Open-end Securities Investment Funds* (hereinafter referred to as the "*Liquidity Risk Management Regulations*"), and other relevant laws and regulations and *ChinaAMC Return Securities Investment Fund Contract* (hereinafter referred to as the "Fund Contract").

The Fund Manager undertakes that there is no false content, misleading statement or material omission in the Prospectus, and accepts legal liability for its truth, accuracy and completeness. The Fund shall be offered based on the information in the Prospectus. The Fund Manager does not entrust or authorise any other person to provide any information that is not stated in the Prospectus nor to make any interpretation or explanation of the Prospectus.

The Prospectus is prepared pursuant to the Fund Contract and approved by the CSRC. The Fund Contract is the legal document that stipulates the rights and obligations of the Parties to Fund. Investors of the Fund become Fund Unitholders and the Parties to the Fund Contract once units of the Fund are obtained pursuant to the Fund Contract. Their holding of the units of the Fund is in itself an acknowledgement and acceptance of the Fund Contract, and they shall be entitled to the rights and will assume the obligations pursuant to the *Funds Law*, the Fund Contract and other laws and regulations. Investors of the Fund should read the Fund Contract carefully for the purpose of understanding the rights and obligations of Fund Unitholders.

VI. Offering of Fund

The Fund Manager offers the Fund pursuant to the relevant regulations of the *Interim Measures on the Management of Securities Investment Funds* and its implementation standards, *Measures for the Pilot Program of Open-ended Securities Investment Funds* and related regulations, the Fund Contract and other related provisions and upon the approval of the CSRC pursuant to an approval letter dated 9 July, 2003 (Zheng Jian Ji Jin Zi [2003] No. 86).

The Fund is an open-end contractual fund, with an indefinite duration.

The Net Asset Value per Unit of the Fund is 1.00 Yuan, and it is offered at the par value during the offering period.

The Fund was offered to individual investors and institutional investors during the period from 22 July, 2003 to 2 September, 2003.

The Fund offered a total of 3,796,885,823.40 Fund Units during the Initial Offer Period of the Fund. The account number of valid subscriptions was 49,829.

VII. Effectiveness of the Fund Contract

According to the relevant regulations, the Fund satisfied all the conditions of effectiveness of the Fund Contract, which came into effect on 5 September, 2003. The Fund Manager has started to manage the Fund since the Effective Date of Fund Contract.

VIII. Subsequent Subscription, Redemption and Switching of Units

If the Fund is authorised to be offered publicly in Hong Kong, the Fund's sales businesses such as Subsequent Subscription, Redemption, Switching shall be processed according to this Prospectus,

unless otherwise specifically provided by relevant announcements of the Fund (e.g. the supplements to the prospectus prepared for distribution in Hong Kong) and the business rules of Hong Kong Sales Institutions.

(1) Set up of units:

The Fund are classified into Class A Units and Class H Units with respective tickers.

Investors can only make Subsequent Subscription to the Class A Units when they make Subsequent Subscription through Sales Institutions in China. Investors can only make Subsequent Subscription to the Class H Units when they make Subsequent Subscription through Hong Kong Sales Institutions.

Units may not be switched between different classes of the Fund unless the Fund Manager otherwise announces to allow such business when certain conditions are met in the future.

(2) Scope of Fund Investors

Investors of Class A Units: The natural persons, legal persons and other organisations located within the People's Republic of China (except those prohibited to purchase securities investment funds by Laws and Regulations), Qualified Foreign Institutional Investors and other investors permitted to purchase securities investment funds by Laws and Regulations or the CSRC.

Investors of Class H Units: Investors who purchase this Fund through Hong Kong Sales Institutions.

(10) Electronic Trading

The company's electronic trading includes online trading and mobile client terminal trading. Investors may process businesses such as Subsequent Subscription or Redemption of the Fund through the company's online trading system or mobile client terminal. Please refer to the company's website for the specific process of the business and business rules. The website of the company: www.ChinaAMC.com.

2. Sales Institutions

For the names, locations and other information of Sales Institutions of the Fund, please refer to the relevant descriptions in "(1) Sales Institutions" under Section "V. Relevant Service Agencies" of the Prospectus.

Investors shall make Subsequent Subscription and Redemption at the Sales Institution's business place for the business of open-end funds or in other ways provided by the Sales Institution. The Fund Manager may add or reduce the number of Sales Institutions according to the situation and publicize it on the Fund Manager's website.

(IV) Business Day and Opening Hours for Subsequent Subscription and Redemption

The Fund handles Subsequent Subscription and Redemption of the Fund for the investors on Business Days. The specific business hours shall be agreed by the Fund Manager and the Sales Institutions. Specifically, in regard to the Class H Units, the Fund's Business Day is the common

trading day (“Common Trading Day”) of Shanghai Stock Exchange, Shenzhen Stock Exchange and Hong Kong Stock Exchange, unless the Fund Managers suspend the businesses such as Subsequent Subscription, Redemption.

If there are any new securities exchanges established or existing exchanges change their trading hours, or other special situations, the Fund Manager shall adjust the Business Day and specific business hours accordingly according to the situations and make an announcement.

The Subsequent Subscription and Redemption of the Fund has started on 23 October, 2003 and the Fund Switching has started on 25 March, 2004.

When investors apply for Subsequent Subscription and Redemption beyond the dates and hours as agreed in the Fund Contract, the prices for Subsequent Subscription and Redemption of the units are those on the Business Day for the next Subsequent Subscription and Redemption of units of the Fund.

(V) Principles of Subsequent Subscription and Redemption

1. Principle of “forward pricing” means that the prices for Subsequent Subscription and Redemption of the Fund will be calculated on the basis of the net asset value per unit calculated after the close of market on the day the application is accepted.

2. Principle of “Subsequent Subscription by amount and Redemption by unit” means the applications for Subsequent Subscription are based on the amount that is invested, while the applications for Redemption are made by unit.

3. Any applications for Subsequent Subscription or Redemption of the day may be cancelled before the time specified by the Fund Manager.

4. When investors apply for Subsequent Subscription and Redemption, the documents to be submitted, and the formalities, time, the operating rules and other matters shall be specified by the Sales Institutions according to the Fund Contract and the Prospectus.

5. The Fund Manager can change any of the above principles without prejudice to the interest of the Fund Unitholders. The Fund Manager shall make an announcement on at least one Designated Medium by the CSRC at least 3 working days prior to the implementation of new rules.

(VI) Procedure of Subsequent Subscription and Redemption

1. Application for Subsequent Subscription and Redemption

The Fund investors shall, according to the procedure specified by the Sales Institutions, apply for Subsequent Subscription or Redemption during the business hours on the Business Days.

When applying for Subsequent Subscription of the Fund, the investors shall make ready sufficient Subsequent Subscription amount in the way as specified by the Sales Institution (outlet).

When submitting the application for Redemption, the investor shall have sufficient balance of fund units in its Sales Institution (outlet).

2. Confirmation of Application for Subsequent Subscription and Redemption

For the applications accepted during the specified time on T Day, under normal circumstances, investors should enquire about and print the confirmation results on T+2 Day through the company's customer service hotline or at the sales outlets where they handle the business.

3. Payment for Application for Subsequent Subscription and Redemption

The payment for Subsequent Subscription shall be made in full; if the amount is not paid in full within the specified time, the Subsequent Subscription shall be unsuccessful; in this case, the amount paid for this Subsequent Subscription shall be returned to the account of the investor.

When investors' application for Redemption is successful, the Fund Manager will instruct the Fund Custodian to transfer the Redemption monies according to related requirements. Redemption monies shall be transferred to the bank account of the redeemer within 7 Working Days after the date on which the Fund investor's valid application for Redemption is accepted. In case of the Substantial Redemption, the payment shall be made according to the relevant requirements specified in the Fund Contract and the Prospectus.

(VII) Limitation on Subsequent Subscription Amount and Redemption Amount

1. When an investor applies for Subsequent Subscription of the Fund through a Direct Sales Institution or ChinaAMC Fortune, the Subsequent Subscription amount per application shall not be less than 1.00 Yuan (including the Subsequent Subscription fee); when an investor applies for Subsequent Subscription of the Fund through other Sales Agencies, the Subsequent Minimum Subscription amount is subject to the provisions of each Sales Agency. Relevant transactions should be conducted according to the rules of respective Sales Institution.

2. When Fund Unitholders redeem Class A Units through the Sales Institutions or ChinaAMC Fortune, each Redemption application shall not be less than 1.00 units. If the Fund Unitholder's

remaining Class A Units at the Sales Institutions or ChinaAMC Fortune are less than 1.00 units at the time of and after Redemption of Class A Units, the Fund Unitholder must redeem all his units in the same application. When Fund Unitholders redeem Class A Units through other Sales Agencies, minimum Units for each redemption application and the minimum balance of the Fund Unitholder's remaining Class A Units at other Sales Agencies at the time of and after Redemption of Class A Units is subject to the provisions of each Sales agency. There is no restriction on the number of redeemed units when Fund Unitholders redeem Class H Units through the Sales Institutions. The specific procedures shall be subject to the relevant requirements of each Sales Institution.

3. Where a Subsequent Subscription application may pose a potentially significant adverse impact on the interests of existing Unitholders, the Fund Manager shall set a limit for a single investor's Subsequent Subscription amount or a single day's net Subsequent Subscription ratio for the Fund, reject the substantial Subsequent Subscription amount, suspend Fund Subsequent Subscriptions for the Fund or adopt such other measures, in order to effectively protect the legitimate rights and interests of existing Unitholders. Please refer to the relevant announcements for details.

4. The Fund Manager may, based on the actual conditions, adjust the above limitations without prejudice to the interest of the Fund Unitholders, and shall make an announcement on at least one Designated Medium by the CSRC at least 3 working days prior to the effective of the adjustment.

(VIII) Subsequent Subscription Fee and Redemption Fee

1. Subsequent Subscription fee of Class A Units

(1) Investors may choose to pay Subsequent Subscription fee when making Subsequent Subscription or Redemption of the Fund. Fees paid by investors during Subsequent Subscription are referred to as the front-end Subsequent Subscription fees and those paid by investors during Redemption are referred to as the back-end Subsequent Subscription fees.

(2) When the investor choose to pay the front-end Subsequent Subscription fees, the fee rates are determined according to the Subsequent Subscription amount. If an investor makes several Subsequent Subscriptions on a single day, the applicable rate shall be calculated separately based on each Subsequent Subscription. The specific rates are as follows:

Subsequent Subscription Amount (including Subsequent Subscription fee)	Rate of Front-end Subsequent Subscription Fee
Less than 1 million Yuan	1.5%

1 million Yuan (including 1 million Yuan) - 5 million Yuan	1.2%
More than 5 million Yuan (including 5 million Yuan)	1.0%

(3) When the investor chooses to pay the back-end Subsequent Subscription fees, the fee rates decrease with the holding period. The specific rates are as follows:

Holding period	Rate of Back-end Subsequent Subscription fee
Less than 1 Year	1.8%
From 1 Year to less than 2 Years	1.5%
From 2 Year to less than 3 Years	1.2%
From 3 Years to less than 4 Years	1.0%
From 4 years to less than 8 years	0.5%
More than 8 years	0

(4) The Subsequent Subscription fee of the Fund is managed and used by the Fund Manager and is not credited to the assets of the Fund.

2. Subsequent Subscription fee of Class H Units

If Investors make Subsequent Subscription of Class H Units, the Subsequent Subscription fee shall be up to 5% of the Subsequent Subscription amount. The specific Subsequent Subscription fee rate and payment method shall be determined by the Sales Institution.

3. Redemption fee of Class A Units

The Redemption fee of the Fund shall be borne by the redeemer and shall be charged when the investor redeems the units. The Redemption fee rates of Class A Units are as follows:

Holding Period	Redemption Fee Rate
Within 7 days	1.5%
More than 7 days (inclusive)	0.5%

If the Units held at the time of Redemption are less than 7 days, the full amount of the charged Redemption fee shall be credited to the assets of the Fund. For Redemption fee charged on Units held for more than 7 days (inclusive) at the time of Redemption, 25% of the total Redemption fee received shall be deducted and credited to the assets of the Fund according to the law, and the remaining is used to pay registration fee, sales handling fee and other expenses.

4. Redemption fee of Class H Units

A fixed Redemption fee of 0.125% of the redeemed amount shall be charged for Class H Units

regardless of the holding period. All such fees shall be credited to the assets of the Fund.

5. The Fund Manager may develop a Fund promotion plan according to the market conditions to the extent not against the requirements of the laws and regulations as well as the agreements in the Fund Contract, to regularly or irregularly conduct Fund promotional activities targeting investors who process fund transactions in specific transaction ways (such as online transactions and mobile client terminal transactions). During the Fund's promotional activities, the Fund Manager may, after handling the necessary formalities in accordance with the requirements of relevant regulatory authorities, appropriately lower the Subsequent Subscription fee rate and the Redemption fee rate.

6. The Fund Manager may adjust the Subsequent Subscription fee rates, Redemption fee rates or charging methods. The latest Subsequent Subscription fee rates, Redemption fee rates and charging methods are set out in the Updated Prospectus. In case of adjustment to the fee rate or charging method, the Fund Manager shall make an announcement on at least one Designated Medium by the CSRC at least 3 working days prior to the implementation of the new fee rate or charging method.

(7) When there is a substantial Subsequent Subscription or Redemption, after performing due processes in accordance with laws and regulations and regulatory requirements, the Fund Manager may adopt a Swing Pricing Mechanism to ensure the fairness of the valuation of the Fund. The specific principles and operating rules follow the relevant laws, regulations and provisions of regulatory authorities, as well as the relevant self-regulatory rules.

(IX) Calculation Methods of Subsequent Subscription Units and Redemption Amounts

1. Calculation of Subsequent Subscription Units

If the investor chooses to pay the front-end Subsequent Subscription fee, the Subsequent Subscription units are calculated as follows:

$$\text{Net Subsequent Subscription amount} = \text{Subsequent Subscription amount} / (1 + \text{Front-end Subsequent Subscription Fee Rate})$$

$$\text{Front-end Subsequent Subscription fee} = \text{Subsequent Subscription amount} - \text{Net Subsequent Subscription amount}$$

$$\text{Subsequent Subscription Units} = \text{Net Subsequent Subscription amount} / \text{Net asset value per unit on T Day}$$

The Net Subsequent Subscription Amount and the Subsequent Subscription Units shall be

rounded to two decimal places.

When investors choose to pay the back-end Subsequent Subscription fee, the Subsequent Subscription units are calculated as follows:

$$\text{Subsequent Subscription Units} = \text{Subsequent Subscription amount} / \text{Net asset value per unit on T Day}$$

The Subsequent Subscription Units shall be rounded to two decimal places. Any losses arising from such rounding shall be borne by the assets of the Fund and any gains arising shall become part of the assets of the Fund.

Example 1: 1. Assuming that the net asset value per unit is 1.200 Yuan on T Day, and that three Subsequent Subscription applications of Class A Units are in the amounts of 1,000 Yuan, 1 million Yuan and 5 million Yuan respectively. If the investors choose to pay the front-end Subsequent Subscription fee, the front-end Subsequent Subscription fees and the Units obtained for each of the Subsequent Subscriptions are calculated as follows:

	Subsequent Subscription 1	Subsequent Subscription 2	Subsequent Subscription 3
Subsequent Subscription Amount (Yuan, A)	1,000.00	1,000,000.00	5,000,000.00
Applicable Front-end Subsequent Subscription fee rate (B)	1.5%	1.2%	1.0%
Net Subsequent Subscription Amount (C=A/(1+B))	985.22	988,142.29	4,950,495.05
Front-end Subsequent Subscription fee (D=A-C)	14.78	11,857.71	49,504.95
Subsequent Subscription Units (E=C/1.200)	821.02	823,451.91	4,125,412.54

If the investors choose to pay the back-end Subsequent Subscription fee, the units obtained for each of the Subsequent Subscriptions are calculated as follows:

	Subsequent Subscription 1	Subsequent Subscription 2	Subsequent Subscription 3
Subsequent Subscription Amount (Yuan, A)	1,000.00	1,000,000.00	5,000,000.00
Subsequent Subscription Units (B=A/1.200)	833.33	833,333.33	4,166,666.67

2. Calculation of the Redemption Amount

When the investors choose to pay the front-end Subscription/ Subsequent Subscription fee when making Subscription/ Subsequent Subscription, the Redemption amount is calculated as

follows:

$$\text{Total Redemption amount} = \text{Redeemed units} \times \text{Net asset value per unit on T Day}$$

$$\text{Redemption fee} = \text{Total Redemption amount} \times \text{Redemption fee rate}$$

$$\text{Redemption amount} = \text{Total Redemption amount} - \text{Redemption fee}$$

When the investors choose to pay back-end Subscription fee when making Subscription, the Redemption amount is calculated as follows:

$$\text{Total Redemption amount} = \text{Redeemed units} \times \text{Net asset value per unit on T Day}$$

$$\text{Redemption fee} = \text{Total Redemption amount} \times \text{Redemption fee rate}$$

$$\text{Back-end Subscription fee} = \text{Redeemed units} \times \text{Par value per units} \times \text{Back-end Subscription fee rate} / (1 + \text{Back-end Subscription fee rate})$$

(The back-end Subscription fee shall be rounded to two decimal places)

$$\text{Redemption amount} = \text{Total Redemption amount} - \text{Redemption fee} - \text{Back-end Subscription fee}$$

The par value per unit is 1.00 Yuan.

When the investors choose to pay back-end Subsequent Subscription fee when making Subsequent Subscription, the Redemption amount is calculated as follows:

$$\text{Total Redemption amount} = \text{Redeemed units} \times \text{Net asset value per unit on T Day}$$

$$\text{Redemption Amount} = \text{Total Redemption amount} \times \text{Redemption fee rate}$$

$$\text{Back-end Subsequent Subscription fee} = \text{Redeemed units} \times \text{Net asset value per unit on Subsequent Subscription Day} \times \text{Back-end Subsequent Subscription fee rate} / (1 + \text{back-end Subsequent Subscription fee rate})$$

(The back-end Subsequent Subscription fee shall be rounded to two decimal places)

$$\text{Redemption amount} = \text{Total redemption amount} - \text{Redemption fee} - \text{Back-end Subsequent Subscription fee}$$

Example 2: Assuming that an investor redeems 10,000 Class A Units on T Day; the net asset value per unit is 1.250 Yuan and the holding period is six months and the investor has paid front-end Subscription/Subsequent Subscription fee at the time of Subscription/ Subsequent Subscription, the Redemption amount obtained is calculated as follows:

$$\text{Total Redemption amount} = 10,000.00 \times 1.250 = 12,500.00 \text{ Yuan}$$

$$\text{Redemption fee} = 12,500.00 \times 0.5\% = 62.50 \text{ Yuan}$$

$$\text{Redemption amount} = 12,500.00 - 62.50 = 12,437.50 \text{ Yuan}$$

Example 3: Assuming that an investor chooses to pay back-end Subscription fee when

subscribing the units of the Fund during the initial offer period, and respectively redeems 10,000 of Class A Units after half a year, one year and a half and two years; the net asset value per unit on the Redemption Day is 1.025 Yuan, 1.080 Yuan and 1.140 Yuan respectively. The Redemption fees charged, back-end Subscription fee and the Redemption amount obtained for each Redemption are calculated as follows:

	Redemption 1	Redemption 2	Redemption 3
Redeemed Units (A)	10,000.00	10,000.00	10,000.00
Par Value per Unit (B)	1.000	1.000	1.000
NAV per Unit on the Redemption Day (C)	1.025	1.080	1.140
Total Redemption Amount (D=A×C)	10,250.00	10,800.00	11,400.00
Redemption Fee Rate (I)	0.5%	0.5%	0.5%
Redemption Fee (E=D×I)	51.25	54.00	57.00
Applicable Back-end Subscription Fee Rate (F)	1.2%	0.9%	0.7%
Back-end Subscription Fee (G=A×B×F/ (1+F))	118.58	89.20	69.51
Redemption Amount (H=D-E-G)	10,080.17	10,656.80	11,273.49

Example 4: Assuming that the net asset value per unit on the day on which an investor makes Subsequent Subscription for the units is 1.200 Yuan and the investor chooses to pay back-end Subsequent Subscription fee, and respectively redeems 10,000 Class A Units after half a year, one and a half year and two and a half years; the net asset value per unit on the Redemption Day is 1.230, 1.300 and 1.360 Yuan respectively. The redemption fee charged, back-end Subsequent Subscription fee and the Redemption amount obtained for each Redemption are calculated as follows:

	Redemption 1	Redemption 2	Redemption 3
Redeemed Units (A)	10,000.00	10,000.00	10,000.00
NAV per Unit on Subsequent Subscription Day (B)	1.200	1.200	1.200
NAV per Unit on the Redemption Day (C)	1.230	1.300	1.360
Total Redemption Amount (D=A×C)	12,300.00	13,000.00	13,600.00
Redemption Fee (E=D×0. 5%)	61.50	65.00	68.00
Applicable Back-end Subsequent Subscription Fee Rate (F)	1.8%	1.5%	1.2%
Back-end Subsequent Subscription Fee (G=A×B×F/ (1+F))	212.18	177.34	142.29
Redemption Amount (H=D-E-G)	12,026.32	12,757.66	13,389.71

3. The net asset value per unit on the T Day shall be calculated after the close of market on that day, and announced on the T+1 Day. In special circumstances, the calculation and announcement may be postponed properly, and shall be reported to the CSRC for filing.

(X) Registration of Subsequent Subscription and Redemption

Upon successful Subsequent Subscription for the Fund by the investor, the Registrar shall register the increase in interests for the investor on T+1 Day, and the investor shall be entitled to redeem such part of units from T+2 Day. After the investor has redeemed the units successfully, the Registrar shall register the decrease in interests for the investor on T+1 Day.

The Fund Manager shall, to the extent permitted by the laws and regulations, adjust the time for the above registration, and shall make an announcement on at least one Designated Medium by the CSRC at least 3 working days prior to the implementation.

(XI) Determination and Procedures of Substantial Redemption

1. Determination of Substantial Redemption

A Substantial Redemption occurs when the Total Redemption Amount of the Fund minus Total Subsequent Subscription Amount plus Total Switched-out Amount of Switching on a single Business Day exceeds 10% of the total Units of the Fund on the preceding Business Day.

2. Treatment of Substantial Redemption

In case of a Substantial Redemption, the Fund Manager may decide to accept the redemption applications in whole or to defer the redemption applications in part based on the status of the Fund's asset portfolio at that time.

(1) Acceptance of redemption in whole: If the Fund Manager is of the view that it is able to pay for all the redemption applications from the investors, redemption shall be processed according to the regular procedure.

(2) Deferral of redemption in part: When the Fund Manager is of the view that there are difficulties with payment for all the redemption applications, or that the asset realisation for the payment for all the redemption applications from the investors may cause drastic fluctuations in the Net Asset Value per Unit, the Fund Manager may defer the remaining redemption applications, provided that the total number of Units redeemed on that day is not less than 10% of the total Units of the preceding day. Acceptance of a redemption application shall be determined based on the ratio of amount of redemption applications of a single account to the total amount of redemption applications on that day. Unless at the time of submitting a redemption application, an investor has chosen to withdraw the portion that is not accepted on the same day, the unredeemed portion shall

be carried forward to the next Business Day for Redemption. Any Redemption applications carried forward to the next Business Day shall not be entitled to any priority for Redemption, and the Redemption amount shall be calculated based on the Net Asset Value per Unit of that following Business Day, until all Units have been redeemed.

(3) In case of a Substantial Redemption and partial deferral, the Fund Manager shall make an announcement and state the procedures on at least one Designated Medium by the CSRC within 3 Working Days

If the Fund encounters a Substantial Redemption for more than two consecutive Business Days, the Fund Manager may suspend the acceptance of redemption applications if necessary. Payment of the redemption applications for those accepted redemption applications may be deferred, but the deferral period shall not exceed 20 Working Days, and the Fund Manager shall make an announcement on at least one Designated Medium by the CSRC.

(4) If Substantial Redemption occurs in the Fund, in the case of Substantial Redemption application from a single Unitholder exceeding 20% of the total Fund Units, if the Fund Manager is of the view that it is difficult to pay all the investors' Redemption amount or that the realisation of assets from the payment of all the investors' Redemption amount may cause relatively significant fluctuations in the Net Asset Value of the Fund, the Fund Manager may defer the Redemption applications in two situations:

① If the Fund Manager is of the view that it is capable of paying all Redemption applications of other investors, for the purpose of protecting the interests of other redemption investors, the Redemption applications for other investors shall be handled in accordance with normal procedures. For Substantial Redemption application from a single investor exceeding 20% of the total Fund Units, the Fund Manager shall, within the scope of the remaining payment capacity, determine the Redemption units accepted on the same day on a pro rata basis, and automatically defer the unconfirmed redemption part. The deferred Redemption applications shall be handled together with the Redemption applications on the next Business Day. The Redemption amount shall be calculated on the basis of the net value of the Fund Unit on the next Business Day with no priority for Redemption, and so on, until all units have been redeemed. If the investor chooses to withdraw the Redemption when submitting the Redemption application, the partial Redemption application

that was not accepted on the same day shall be cancelled.

② If the Fund Manager is of the view that there are difficulties with payment for only the Redemption applications of other investors, then all the investors' Redemption applications (including the Substantial Redemption applications from a single investor exceeding 20% of the total Fund Units and the Redemption applications of other investors) shall be handled in accordance with the above-mentioned "(2) Deferral of Redemption in part".

(XII) Rejection or Suspension of Subsequent Subscription and Suspension of Redemption or Deferral of Payment of Redemption Applications and the Relevant Treatment

1. The Fund Manager may reject or suspend the acceptance of investors' application for Subsequent Subscription in any of the following circumstances:

(1) In case of force majeure.

(2) Abnormal close of market within the trading hours of the stock exchanges.

(3) The Fund Manager believes that the market is short of suitable investment opportunities and acceptance of further Subsequent Subscription may impair the interests of the existing Fund Unitholders.

(4) The Subsequent Subscription which, the Fund Manager believes, will impair the interest of the existing Fund Unitholders.

(5) The Fund Manager, the Fund Custodian, the Sales Agencies of the Fund or the Registrar lack sufficient technical protection or staff support.

(6) Hong Kong investors' Subsequent Subscription applications may be suspended when the percentage of sales of the Fund in Hong Kong to the total assets of the Fund is higher than 50%.

(7) If, on the preceding Valuation Date, more than 50% of the Net Asset Value of the Fund was invested in assets the value of which could not be referenced to any active market price and the use of valuation techniques would still cause significant uncertainty to the fair value of those assets, the Fund Manager shall suspend applications for Subscription of the Fund after consultation and confirmation with the Fund Custodian;

(8) When a Subsequent Subscription application or certain Subsequent Subscription applications may result in the Units held by a single investor reaching or exceeding 50% of the Fund's Net Asset Value, or disguised avoidance of 50% concentration;

(9) Other circumstances specified by the related laws and regulations or approved by the CSRC.

2. The Fund Manager may suspend the acceptance of investors' application for Redemption or defer the payment of Redemption applications in any of the following circumstances:

(1) In case of force majeure.

(2) Abnormal close of market within the trading hours of the stock exchanges.

(3) If on the preceding Valuation Date, more than 50% of the Net Asset Value of the Fund was invested in assets the value of which could not be referenced to any active market price and the use of valuation techniques would still cause significant uncertainty to the fair value of those assets, the Fund Manager shall suspend the Redemption application of the Fund or defer the payment of Redemption proceeds after consultation and confirmation with the Fund Custodian;

(4) Other circumstances specified by the related laws and regulations or approved by the CSRC.

In case of any of the above circumstances, the Fund Manager shall report to the CSRC for filing on the same day. For the Redemption applications that have been accepted, the Fund Manager shall make full payment; if full payment cannot be made for the time being, the Fund Manager shall make pro rata payments to the redeeming applicants according to the ratio between the amount of each accepted Redemption application and the total amount of the accepted Redemption applications. The remaining payment shall be made on the subsequent Business Day, and the Redemption amount shall be calculated based on the net asset value per unit on the subsequent Business Day. Investors may at the time of application for Redemption choose to withdraw the unaccepted portion of the Redemption application on the same day.

Once the relevant circumstances causing the suspension of Redemption are removed, the Fund Manager shall resume the Redemption activity timely.

3. In case of any circumstances not specified in the Fund Contract and the Prospectus and the Fund Manager has proper reasons to believe it is necessary to suspend the acceptance of applications for Subsequent Subscription and Redemption, applications for Subsequent Subscription and Redemption by investors may be suspended temporarily subject to the approval of the CSRC.

4. In case of suspension of Subsequent Subscription for and Redemption of the Fund, the Fund Manager shall make an announcement on at least one Designated Medium by the CSRC.

5. When the Fund is re-opened upon the expiration of suspension period, the Fund Manager

shall make an announcement accordingly.

If the time of suspension is 1 day, the Fund Manager shall publish an announcement of re-opening of Subsequent Subscription or Redemption and the latest net asset value per unit on at least one Designated Medium by the CSRC on the day of re-opening.

If the suspension lasts for more than 1 day but less than two weeks, the Fund Manager shall, 1 Working Day prior to the re-opening day of Subsequent Subscription or Redemption when suspension ends, publish an announcement of re-opening of Subsequent Subscription or Redemption on at least one Designated Medium by the CSRC, and shall announce the latest net asset value per unit on the re-opening day of Subsequent Subscription or Redemption.

If the suspension lasts for more than two weeks, the Fund Manager shall publish an announcement of suspension at least once every two weeks during the suspension period. If the suspension lasts for more than two months, the frequency of such announcement of suspension may be adjusted. When the suspension ends and the Subsequent Subscription or Redemption of the Fund is re-opened, the Fund Manager shall publish an announcement of the re-opening of Subsequent Subscription or Redemption of the Fund for 3 consecutive Working Days in advance, and shall announce the latest net asset value per unit on the re-opening day of Subsequent Subscription or Redemption on at least one Designated Medium by the CSRC.

(XIII) Switching of Units

The Fund will not accept Switching of Class H Units before the Fund Manager otherwise announces.

1. Principles of Fund Switching

(1) Investors may only apply for Fund Switching to those institutions selling both switch-in funds and switch-out funds.

(2) Applications for Fund Switching are made in unit.

(3) The method of forward pricing is adopted for the Fund Switching, which means that the Switching prices of the Fund will be calculated on the basis of the net asset value per unit of switch-out and switch-in funds on the day the application for Switching is accepted.

(4) The investor's applications for Fund Switching on T Day will be confirmed on T+1 Day.

(5) Unless otherwise specified, a single application for Switching out by a Fund Unitholder

shall be subject to the restrictions on the Redemption units of the Fund, a single application for Switching in is not subject to the minimum Substantial Subscription limit of the switch-in fund.

(6) In case of Substantial Redemption, the Switching out and Redemption of the Fund shall have the same priority. The Fund Manager may decide to accept all or part of the switch-out applications according to the status of the Fund's portfolio, and the applications for Switching out and Redemption of Fund shall be confirmed according to the same ratio. If the applications for Switching out are confirmed in part, the unconfirmed applications for Switching out may be deferred or cancelled according to the choice made by the investor before or the relevant requirements of the Sales Agency.

(7) When investors apply for a Fund Switching, the switch-out fund must be available for Redemption and the switch-in fund must be available for Subsequent Subscription.

Due to the system and business arrangement of each Sales Agency, the time for the business of Fund Switching may differ among different Sales Agencies; the investors shall refer to the specific rules of each Sales Agency.

The Fund Manager has the right to adjust the procedure and related restrictions of Switching according to the market conditions, provided that any adjustment shall be announced on at least one Designated Medium by the CSRC at least 3 Working Days before such adjustments take effect.

2. Circumstances and Treatment of Suspension of Fund Switching

In case of one of the following situations, the Fund Manager may suspend Fund Switching:

(1) The Fund fails to operate normally due to force majeure.

(2) The Fund Manager fails to calculate the Net Asset Value of the Fund for the day due to abnormal close of market within the trading hours of the stock exchanges.

(3) Consecutive Substantial Redemption has been caused by drastic fluctuation of the market or other reasons, and the Fund Manager believes that it is necessary to suspend the acceptance of applications for Switching out of the units.

(4) The Fund Manager believes that the acceptance of a particular switch-out application may prejudice the interests of existing Fund Unitholders.

(5) The Fund Manager has reasonable grounds to believe that it is necessary to reject or suspend the acceptance of Fund Switching applications.

(6) The circumstances under which the Subsequent Subscription and Redemption of the Fund shall be suspended according to the Fund Contract.

(7) Other situations as stipulated by the laws and regulations or as defined by the CSRC.

In case of the occurrence of any of the above circumstances, the Fund Manager shall publish an announcement of suspension on at least one Designated Medium by the CSRC within the prescribed period. When Switching of the Fund is re-opened, the Fund Manager shall make timely announcement of re-opening of Fund Switching on at least one Designated Medium by the CSRC.

3. Fund Switching fee

(1) Fund switching fee: Nil.

(2) Switch-out fund fee: The fee shall be charged based on the Redemption fee chargeable upon Redemption of switch-out funds. Where the back-end load model is used that portion of fund, the back-end Subsequent Subscription fee chargeable at the time of Redemption shall also be charged apart from Redemption fee. Switched amount refers to the balance after Redemption fee and back-end Subsequent Subscription fee (if any) are deducted.

(3) Switch-in fund fee: The Subsequent Subscription fee for the switch-in fund shall be charged according to the applicable switching situations. The details are as follows:

① Switching out of front-end (proportional rate) load fund and switching into other front-end (proportional rate) load fund

Description: An investor converts the units held in a front-end load fund into the units of other front-end load fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee rate of both switch-out fund and switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = maximum front-end Subsequent Subscription fee of switch-in fund - maximum front-end Subsequent Subscription fee of switch-out fund; the minimum fee is zero.

Business case: See Case 1 in "4. Business Cases" for details.

② Switching out of front-end (proportional rate) load fund and switching into other front-end (fixed rate) load fund

Description: An investor converts the units held in a front-end load fund into the units of other front-end load fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee of switch-out fund and the fixed rate applies to the Subsequent

Subscription fee of switch-in fund.

Charging method: If the maximum front-end Subsequent Subscription fee of switch-in fund is higher than that of switch-out fund, the chargeable Subsequent Subscription fee shall be the fixed rate that applies to the switch-in fund. Otherwise, the chargeable Subsequent Subscription fee is zero.

Business case: See Case 2 in "4. Business Cases" for details.

③ Switching out of front-end (proportional rate) load fund and switching into other back-end load fund

Description: An investor converts the units held in a front-end load fund into the units of other back-end load fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee of switch-out fund.

Charging method: When the front-end load fund is switched into other back-end load fund, the holding period of the units switched in shall restart from the date on which such units are confirmed.

Business case: See Case 3 in "4. Business Cases" for details.

④ Switching out of front-end (proportional rate) load fund and switching into other Subsequent Subscription fee-free fund.

Description: An investor converts the units held in a front-end load fund into the units of other Subsequent Subscription fee-free fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee of switch-out fund.

Charging method: No Subsequent Subscription fee is charged.

Business case: See Case 4 in "4. Business Cases" for details.

⑤ Switching out of front-end (fixed rate) load fund and switching into other front-end (proportional rate) load fund

Description: An investor converts the units held in a front-end load fund into the units of other front-end load fund under the management of the company, and the fixed rate applies to the Subsequent Subscription fee of switch-out fund and the proportional fee rate applies to the Subsequent Subscription fee of switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = maximum front-end Subsequent Subscription fee of switch-in fund - maximum front-end Subsequent Subscription fee of switch-out

fund; the minimum fee is zero.

Business case: See Case 5 in "4. Business Cases" for details.

⑥ Switching out of front-end (fixed rate) load fund and switching into other front-end (fixed rate) load fund

Description: An investor converts the units held in a front-end load fund into the units of other front-end load fund under the management of the company, and the fixed rate applies to the Subsequent Subscription fee of both switch-out fund and switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = Subsequent Subscription fee of switch-in fund - Subsequent Subscription fee of switch-out fund; the minimum fee is zero.

Business case: See Case 6 in "4. Business Cases" for details.

⑦ Switching out of front-end (fixed rate) load fund and switching into other back-end load fund

Description: An investor converts the units held in a front-end load fund into the units of other back-end load fund under the management of the company, and the fixed rate applies to the Subsequent Subscription fee of switch-out fund.

Charging method: When the front-end load fund is switched into other back-end load fund, the holding period of units switched in shall restart from the date on which such units are confirmed.

Business case: See Case 7 in "4. Business Cases" for details.

⑧ Switching out of front-end (fixed rate) load fund and switching into other Subsequent Subscription fee-free fund

Description: An investor converts the units held in a front-end load fund into the units of other Subsequent Subscription fee-free fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee of switch-out fund.

Charging method: No Subsequent Subscription fee is charged.

Business case: See Case 8 in "4. Business Cases" for details.

⑨ Switching out of back-end load fund and switching into other front-end (proportional rate) load fund

Description: An investor converts the unit held in a back-end load fund into the unit of other front-end load fund under the management of the company, and the proportional fee rate applies to

the Subsequent Subscription fee of switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = maximum front-end Subsequent Subscription fee of switch-in fund - maximum front-end Subsequent Subscription fee of switch-out fund; the minimum fee is zero.

Business case: See Case 9 in "4. Business Cases" for details.

⑩ Switching out of back-end load fund and switching into other front-end (fixed rate) load fund

Description: An investor converts the units held in a back-end load fund into the units of other front-end load fund under the management of the company, and the fixed rate applies to the Subsequent Subscription fee of switch-in fund.

Charging method: If the maximum front-end Subsequent Subscription fee of switch-in fund is higher than that of switch-out fund, the chargeable Subsequent Subscription fee shall be the fixed rate that applies to the switch-in fund. Otherwise, the chargeable Subsequent Subscription fee is zero.

Business case: See Case 10 in "4. Business Cases" for details.

⑪ Switching out of back-end load fund and switching into other back-end load fund

Description: An investor converts the units held in a back-end load fund into the units of other back-end load fund under the management of the company.

Charging method: When the back-end load fund is switched into other back-end load fund, the holding period of units switched in shall restart from the date on which such units are confirmed.

Business case: See Case 11 in "4. Business Cases" for details.

⑫ Switching out of back-end load fund and switching into other Subsequent Subscription fee-free fund

Description: An investor converts the units held in a back-end load fund into the units of other Subsequent Subscription fee-free fund under the management of the company.

Charging method: No Subsequent Subscription fee is charged.

Business case: See Case 12 in "4. Business Cases" for details.

⑬ Switching out of Subsequent Subscription fee-free fund and switching into other front-end (proportional rate) load fund

Description: An investor converts the units held in a Subsequent Subscription fee-free fund into the units of other front-end load fund under the management of the company, and the proportional fee rate applies to the Subsequent Subscription fee of switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = Subsequent Subscription fee of switch-in fund - sales and service fee of switch-out fund × holding period of switch-out fund (Unit: Year), the minimum fee is zero.

Business case: See Case 13 in "4. Business Cases" for details.

⑭ Switching out of Subsequent Subscription fee-free fund and switching into other front-end (fixed rate) load fund

Description: An investor converts the units held in a Subsequent Subscription fee-free fund into the units of other front-end load fund under the management of the company, and the fixed rate applies to the Subsequent Subscription fee of switch-in fund.

Charging method: Chargeable Subsequent Subscription fee = Fixed fee - Switched amount × sales and service fee of switch-out fund × holding period of switch-out fund (Unit: Year), the minimum fee is zero.

Business case: See Case 14 in "4. Business Cases" for details.

⑮ Switching out of Subsequent Subscription fee-free fund and switching into other back-end load fund

Description: An investor converts the units held in a Subsequent Subscription fee-free fund into the units of other back-end load fund under the management of the company.

Charging method: When the Subsequent Subscription fee-free fund is switched into other back-end load fund, the holding period of units switched in shall restart from the date on which such units are confirmed.

Business case: See Case 15 in "4. Business Cases" for details.

⑯ Switching out of Subsequent Subscription fee-free fund and exchanging into other Subsequent Subscription fee-free fund

Description: An investor converts the units held in a Subsequent Subscription fee-free fund into the units of other Subsequent Subscription fee-free fund under the management of the company.

Charging method: No Subsequent Subscription fee is charged.

Business case: See Case 16 in "4. Business Cases" for details.

⑰ Supplementary descriptions of Switching out of money market funds

In the case of money market funds, the holding time shall be adjusted whenever the funds create new units. The calculation method is as follows:

Post-adjustment holding time = original holding time × original unit / (original unit + new unit)

(4) If there is any discount to the above fees, such discount shall be applied.

The Fund Manager may adjust the business rules related to Fund Switching to the extent permitted by laws and regulations and the Fund Contract.

4. Business Cases

Case 1: An investor switches out 1,000 units of Fund A on T Day (front-end load model), and the net asset value per unit of Fund A on that day is 1.200 Yuan. The maximum front-end Subsequent Subscription fee rate of Fund A is 1.5% and the Redemption fee rate is 0.5%.

(1) If units are switched into Fund B on T Day (front-end load model) and the maximum front-end Subsequent Subscription fee rate applicable to Fund B is 2.0%, the net asset value per unit of Fund B on that day is 1.300 Yuan, then the fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	1,000.00
NAV per unit of switch-out fund on T Day (B)	1.200
Total amount switched out (C=A*B)	1,200.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	6.00
Switched amount (F=C-E)	1,194.00
Subsequent Subscription fee rate chargeable upon Switching in (G)	2.0%-1.5%=0.5%
Net amount switched in (H=F/ (1+G))	1,188.06
Fee of switch-in fund (I=F-H)	5.94
NAV per unit of switch-in fund on T Day (J)	1.300
Unit(s) switched in (K=H/J)	913.89

(2) If units are switched into Fund C on T Day (front-end load model) and the maximum front-end Subsequent Subscription fee rate applicable to Fund C is 1.2%, the net asset value per unit of Fund C on that day is 1.300 Yuan, then the fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	1,000.00
NAV per unit of switch-out fund on T Day (B)	1.200

Total amount switched out (C=A*B)	1,200.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	6.00
Switched amount (F=C-E)	1,194.00
Subsequent Subscription fee rate chargeable upon Switching in (G)	0.00%
Net amount switched in (H=F/(1+G))	1,194.00
Fee of switch-in fund (I=F-H)	0.00
NAV per unit of switch-in fund on T Day (J)	1.300
Unit(s) switched in (K=H/J)	918.46

Case 2: An investor switches out 10,000,000 units of Fund A on T Day (front-end load model) and the proportional fee rate is applicable to the Subsequent Subscription fee of Fund A. The net asset value per unit of Fund A on that day is 1.200 Yuan. The maximum front-end Subsequent Subscription fee rate of Fund A is 1.5% and the Redemption fee rate is 0.5%.

(1) If units are switched into Fund B on T Day (front-end load model), and the Subsequent Subscription fee applicable to Fund B is 1,000 Yuan and the maximum front-end Subsequent Subscription fee rate of Fund B is 2.0%, the net asset value per unit of Fund B on that day is 1.300 Yuan, then the fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	10,000,000.00
NAV per unit of switch-out fund on T Day (B)	1.200
Total amount switched out (C=A*B)	12,000,000.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	60,000.00
Switched amount (F=C-E)	11,940,000.00
Fee of switch-in fund (G)	1,000.00
Net amount switched in (H=F-G)	11,939,000.00
NAV per unit of switch-in fund on T Day (I)	1.300
Unit(s) switched in (J=H/I)	9,183,846.15

(2) If units are switched into Fund C on T Day (front-end load model) and the Subsequent Subscription fee applicable to Fund C is 1,000 Yuan and the maximum front-end Subsequent Subscription fee rate of Fund C is 1.2%, the net asset value per unit of Fund C on that day is 1.300 Yuan, then the fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	10,000,000.00
NAV per unit of switch-out fund on T Day (B)	1.200
Total amount switched out (C=A*B)	12,000,000.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	60,000.00
Switched amount (F=C-E)	11,940,000.00

Fee of switch-in fund (G)	0.00
Net amount switched in (H=F-G)	11,940,000.00
NAV per unit of switch-in fund on T Day (I)	1.300
Unit(s) switched in (J=H/I)	9,184,615.38

Case 3: An investor successfully submitted an application for Fund Switching on 15 March, 2010 to switch out 1,000 units held in a front-end load fund (Fund A) and switch into the back-end load fund (Fund B), and the net asset value per unit of Fund A and Fund B on that day are 1.200 Yuan and 1.500 Yuan respectively. Such Switching was confirmed to be successful on 16 March, 2010. The applicable Redemption fee rate of Fund A is 0.5%. The fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	1,000.00
NAV per unit of switch-out fund on T Day (B)	1.200
Total amount switched out (C=A*B)	1,200.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	6.00
Switched amount (F=C-E)	1,194.00
Fee of switch-in fund (G)	0.00
Net amount switched in (H=F-G)	1,194.00
NAV per unit of switch-in fund on T Day (I)	1.500
Unit(s) switched in (J=H/I)	796.00

If the investor redeemed Fund B on 1 January, 2011, and the holding period of Fund B at the time of Redemption is within one year, the applicable back-end Subsequent Subscription fee rate is 1.2%, and no Redemption fee shall be charged for redemption of Fund B at this time, the net asset value per unit of Fund B on that day is 1.300 Yuan, then the Redemption amount shall be calculated as follows:

Items	Calculation of fee
Unit(s) redeemed (K)	796.00
NAV per unit on Redemption Day (L)	1.300
Total Redemption amount (M=K*L)	1,034.80
Redemption fee (N)	0.00
Applicable back-end Subsequent Subscription fee rate (O)	1.2%
Back-end Subsequent Subscription fee (P=K*I*O/(1+O))	14.16
Redemption amount (Q=M-N-P)	1,020.64

Case 4: An investor switches out 1,000 units of a front-end load fund (Fund A) on T Day, and switches into a Subsequent Subscription fee-free fund (Fund B). The net asset value per unit of Fund A and Fund B on T day are 1.300 Yuan and 1.500 Yuan respectively. The Redemption fee rate of

Fund A is 0.5%. The fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	1,000.00
NAV per unit of switch-out fund on T Day (B)	1.300
Total amount switched out (C=A*B)	1,300.00
Redemption fee rate of switch-out fund (D)	0.5%
Fee of switch-out fund (E=C*D)	6.50
Switched amount (F=C-E)	1,293.50
Fee of switch-in fund (G)	0.00
Net amount switched in (H=F-G)	1,293.50
NAV per unit of switch-in fund on T Day (I)	1.500
Unit(s) switched in (J=H/I)	862.33

Case 5: An investor switches out 10,000,000 units of Fund A on T Day (front-end load model), and the fixed rate is applicable to the Subsequent Subscription fee of Fund A and the net asset value per unit of Fund A on T day is 1.200 Yuan. The maximum front-end Subsequent Subscription fee rate of Fund A is 1.2% and the Redemption fee rate is 0.5%.

(1) If units are switched into Fund B on T Day (front-end load model) and the proportional fee rate is applicable to the Subsequent Subscription fee of Fund B. The maximum front-end Subsequent Subscription fee rate of Fund B is 1.5%. The net asset value per unit of Fund B on that day is 1.300 Yuan. The fees and units of switch-out fund and switch-in fund shall be calculated as follows:

Items	Calculation of fee
Unit(s) switched out (A)	10,000,000.00

IX. Non-trading Transfer, Agency Transfer and Other Business of the Fund Units

(I) The Registrar accepts the applications for non-trading transfer including inheritance, donation, judicial enforcement and other circumstances recognized by the Registrar and in compliance with the laws and regulations. Inheritance refers to the situation where a Fund Unitholder is deceased and his Fund Units are inherited by the legal successor. Donation only refers to the situation where a Fund Unitholder donates his legally held Fund Units to any charity funds or

other social organizations with community welfare nature. Judicial enforcement refers to compulsory transfer by a judicial body of the Fund Units of a Fund Unitholder to another natural person, legal person or organization according to a valid judicial document. To process the non-trading transfer, relevant materials that meet the requirements must be provided to the Registrar, and those applications that meet the conditions will be dealt with within 2 months from the date of the acceptance of such applications and will be subject to a standard fee stipulated by the Registrar.

(II) Where the Fund Unitholder engages in a procedure of Agency Transfer of his Fund Units between Trading Accounts, the Sales Institution may charge an Agency Transfer fee in accordance with a stipulated standard rate. For specific handling procedures, please refer to the business requirements of the Fund Manager and Sales Institutions.

(III) The Registrar only allows Fund Accounts or Fund Units to be frozen and unfrozen as required by competent authorities of the state in accordance with applicable law or under other circumstances recognized by the Registrar and in compliance with laws and regulations. Where the Fund Account or Fund Units are frozen, whether the interest and rights accruing from the frozen Fund Accounts and Fund Units shall be frozen or not will be determined according to the relevant regulations.

(IX) The Registrar may, based on the related laws and regulations, provide services of pledging of Fund Units, and stipulate and make public the corresponding business requirements.

X. Investments of Fund

(I) Investment Objective

The investment objective is to seek to minimise losses to the assets of the Fund whilst maximising the absolute return every year.

(II) Investment Scope

The Fund may invest in the financial instruments with good liquidity, including stocks (including depositary receipts), bonds, warrants, asset-backed securities publicly issued and listed within China according to the relevant laws and other financial instruments permitted by the CSRC. Bonds include treasury bonds, financial bonds and corporate bonds (including convertible bonds), etc.

(III) Investment Philosophy

Correct judgment of the market trend, rational allocation between stocks, bonds and other investment instruments and accurate selection of stock variety and bond variety with investment value for investment may achieve higher absolute return every year while minimising losses to the assets of the Fund.

1. Return comes from correct judgment on the market

Securities market is subject to constant fluctuation and income always comes with risks. Proactive manager always attempts to correctly determine the primary source of income in order to effectively control the risks of loss. The domestic and overseas investment history has shown that, determining the market trends of stocks, bonds and other investment instruments and reasonably allocating between them contribute the most to investment income. We believe that in-depth analysis on the fundamentals of the economy and the market can help to determine the market trend correctly in order to achieve higher return.

2. Achieve targeted returns through reasonable allocation of asset classes

China's securities market will constantly grow with our rapid economic growth; incomes from stocks will be higher than the interest rate of deposits in the long run. However, since China's securities market is an emerging market, there are certain inevitable structural issues at the primary stage during the development of the market and shall be improved gradually throughout the development. In the process of development and improvement of the market, every structural change may give rise to significant fluctuations in the market, resulting in higher risks of loss relating to stocks in the short-term. To the contrary, as incomes from bonds are comparatively stable, reasonable allocation between stocks and bonds can minimise the losses to the assets of the Fund, thus achieving higher absolute return every year.

3. Make investment in carefully selected value-added stocks and bonds to enhance the return on investment

Among the asset classes held by the Fund, investments will be primarily made in stocks and bonds relatively undervalued and with higher appreciation potential in order to achieve higher return.

(IV) Investment Style

The Fund is a mixed fund investing in value stocks and high credit rating bonds. The equity

investment of the Fund shall focus on the value stocks, with the assets invested taking up not less than 80% of the total stock assets of the Fund, while the debt investment of the Fund shall focus on treasury bonds, financial bonds and enterprise (corporate) bonds (including convertible bonds) and other bonds with credit rating of BBB or above (or guaranteed by the institution with high credit rating or collateralized by high quality assets).

(V) Investment Strategies

1. Asset Allocation Strategies

The Fund Manager analyses and determines the trend of the securities market and reasonably determines the allocation among different asset classes, such as stocks, bonds and cash, subject to the relevant investment restrictions. The Fund Manager will also adopt quantitative methods such as analysing the equilibrium point of market value to help determine changes of market trend.

(1) When the stock market is trading within a low-risk range or is expected to be on a rising trend, the Fund shall take active actions to mainly invest in the stock market so as to benefit from the rise of market and achieve higher returns.

(2) When the stock market is expected to fluctuate, the Fund shall adopt an interval operation strategy. During the fluctuation and adjustment of stock market, there are often a short-term imbalance that the value of an entire type of asset, certain sectors or individual stocks are undervalued, which may be caused by, for example, an overselling of stocks by the investors as a result of the psychological panic. The Fund Manager shall identify, determine and utilise such opportunities of market imbalance, and mainly invest in the undervalued types of assets, sectors or individual stocks to achieve the investment objective of the Fund.

(3) When the stock market is trading within a high-risk range or is expected to be on a falling trend, the Fund shall adopt a conservative approach to greatly reduce the proportion of stock investment or even liquidate the stocks, and to mainly invest in the bond market to avoid the systemic risk caused by the falling of stock market so as to protect the portfolio from losses.

(4) When the interest rate is expected to rise and the price of bonds is expected to drop, the proportion of cash in the portfolio shall increase and the portfolio's investment in bond assets shall focus on short-term bonds and floating-rate bonds. When the interest rate is expected to drop and the price of bonds is expected to rise, the proportion of cash in the portfolio shall decrease and the

portfolio's investment in bond assets shall focus on the medium-and long-term bonds to achieve higher returns.

In addition, the Fund will also actively participate in the low-risk and risk-controllable investments, such as Subsequent Subscription of new stocks and repurchase of bonds so as to increase the returns. Based on the principles of prudence and controllable risks to secure returns that correspond to the risks undertaken, the Fund Manager may invest in warrants, provided that the investment is in line with the investment objective of the Fund.

2. Stock Investment Strategies

Value investment strategies are mainly adopted for the stock investment of the Fund. The Fund will pay special attention to the stocks that meet the following standards:

(1) Stocks with the market capitalisation reaches or exceeds RMB 2 billion, and the free float market capitalisation reaches or exceeds RMB 800 million.

(2) Stocks with price earning ratio (P/E ratio) is lower than the market average, and in particular, the PE ratio after adjustment for the company's future business development growth rate (P/E)/ G is relatively low.

Large-cap shares account for a higher weighting in total stocks market capitalisation and can better reflect China's rapid economic growth. Investment in large-cap shares can more fully share the fruits of China's economic growth. Moreover, prices of large-cap shares are subject to relatively small fluctuations and high predictability, which are conducive to analysis and judgment. Then investment will be made based thereon. Shares with lower P/E ratio after adjustments for growth have higher investment value. It is expected that those shares can secure higher absolute return, which facilitates the Fund to achieve the investment objective of obtaining higher absolute return.

For depository receipt investments, the Fund will select depository receipts with comparative advantages through a combination of qualitative and quantitative analysis based on in-depth research.

3. Bond Investment Strategies

For the purpose of the bond investment of the Fund, duration deviation strategy, yield curve placement strategy and category placement strategy are adopted mainly based on the judgement on the trend of changes in the interest rate, spread and other factors to enhance the return on investment

of bonds.

Investment is mainly made in the treasury bonds and investment grade bond for the bond investment of the Fund. Bonds with the following one or more features will be the targets of the Fund's bond investment:

(1) Bonds with better liquidity.

(2) Bonds with a higher yield to maturity among the bonds with similar credit quality and term.

(3) Bonds with a reasonable level of risk and better downside protection.

(4) Bonds the term structure and return and risk features of which are consistent with market expectation.

(5) Bonds with better credit quality under the same condition or with credit quality expected to be improved.

(VI) Investment Procedures

The organic coordination of research, decision-making, portfolio construction, trading, evaluation and portfolio adjustments jointly constitute the Fund's investment management procedures. Stringent investment management procedures could ensure the right execution of investment philosophy to avoid occurrence of major risks.

1. Research

The Fund's equity investment research leverages on the company's overall research platform, while incorporating the findings of external information, brokers and other external research efforts. The company's researchers, by sector, are responsible for the tracking and research of the individual stocks among various sectors and within the sector. On the basis of financial indicator analysis, on-site research and value assessment, the researchers submit investment recommendation reports on their covered stocks and sectors for the reference of the fund managers and the Investment Decision-Making Committee. In addition, the company has specialized macroeconomic researchers who are responsible for analyzing consumption, investment, import and export, employment, interest rate, exchange rate, government policies and other factors, so as to provide support for asset allocation decisions. The company has also established a fixed-income department for bond investment research.

2. Asset allocation decision-making

The Investment Decision-Making Committee is responsible for determining the basic trend of securities market within a certain period in the future so as to determine the allocation ratio of the assets of the Fund among such asset classes as stocks, bonds etc.. The portfolio manager group determines the specific asset allocation within the scope of the asset allocation ratio determined by the Investment Decision-Making Committee.

3. Portfolio construction

The portfolio manager group determines the specific types of investment and decides on the timing of trading based on the investment reports submitted by the researchers and its own judgement in research. In particular, the major individual investment decision is subject to the approval of the Investment Decision-Making Committee. For the targeted stock investment, the portfolio manager group will adopt a long-term focus approach and accumulate the stocks when opportunity arises to reduce purchase costs and control investment risks. For the purchased stocks, the Fund generally has a longer holding period. The long-holding operational strategy could effectively reduce the Fund's transaction costs and liquidation costs, thereby enhancing the Fund's income level.

4. Execution of transactions

The Transaction Management Department is responsible for specific execution of transaction. It also performs front-line monitoring duties, including the monitoring of the Fund's asset allocation and the investment ratio of individual stocks.

5. Risk and performance evaluation

The Risk Management Department shall, regularly and irregularly, conduct risk and performance evaluation on the Fund and provide relevant reports. The risk report can keep the Investment Decision-Making Committee and the portfolio manager group informed of the risks assumed by the portfolio and determine if the risks assumed comply with the established investment strategies. Performance evaluation can help to determine if the portfolio has achieved the investment expectations, source of proceeds from the portfolio and whether the investment strategies succeed or not. The portfolio manager group may review the investment strategies based thereon and then adjust the investment portfolios.

6. Portfolio monitoring and adjustment

The portfolio manager group will keep track of the changes in economic situation, development of securities market and the listed companies, together with the cash flow of Subsequent Subscription and Redemption of the Fund and the results of portfolio risk and performance assessment, in order to monitor and adjust the investment portfolio, so that the portfolio is continuously optimised.

The Fund Manager, having considered the Fund Unitholders' interests, shall have the right to adjust the above investment process according to changes in the environment and actual demand, and such adjustments are disclosed in the Prospectus of the Fund and its updates.

(VII) Investment Portfolios

The Fund's investment portfolios shall meet the following requirements:

1. The investment in stocks and bonds made by the Fund shall not be less than 80% of the Total Asset Value of the Fund in which investment in stocks shall not exceed 95%.

2. The Fund's shareholding in one single company shall not exceed 10% of the Net Asset Value of the Fund.

3. Where the Fund and any other funds managed by the Fund Manager hold the securities issued by the same company, the holdings shall not exceed 10% of such securities.

4. The investment in treasury bonds made by the Fund as a percentage shall not be less than 20% of the Net Asset Value of the Fund.

5. The total amount of warrants bought in by the Fund on any trading day shall not exceed 0.5% of the Net Asset Value of the Fund on the preceding trading day.

6. The market capitalisation of all the warrants held by the Fund shall not exceed 3 % of the Net Asset Value of the Fund.

7. Where the Fund and any other funds managed by the Fund Manager hold the same warrants, the holdings shall not exceed 10% of such warrants.

8. The same (i.e. the same credit rating) asset-backed security held by the Fund shall not exceed 10% of such asset-backed security.

9. The investment in various types of asset-backed securities of the same originator made by the Fund shall not exceed 10% of the Net Asset Value of the Fund.

10. The investment in various types of asset-backed securities of the same originator made by

all securities investment funds under the management of the Fund Manager as a percentage shall not exceed 10% of the aggregate size of its asset-backed securities.

11. The market capitalisation of all the asset-backed securities held by the Fund shall not exceed 20% of the Net Asset Value of the Fund.

12. The asset-backed securities invested by the Fund shall have a credit rating of BBB or above. If, during the Fund's holding of the asset-backed securities, the credit rating thereof downgrades and no longer complies with the investment standards, all asset-backed securities shall be sold within 3 months from the publication date of the rating report.

13. Where the laws and regulations or regulatory authorities otherwise provide for the above-mentioned restrictions on ratio, such provisions shall prevail.

14. The Fund will meet the above-mentioned investment ratio within 3 months from the effect of the Fund Contract.

15. At the end of each trading day, cash and government bonds with maturity less than one year should not be less than 5% of the Net Asset Value of the Fund. The term "cash" does not include Deposit Reservation for Balances, Guarantee Deposit and Margin Paid, Subsequent Subscription Fee Receivable, etc..

16. All open-ended funds managed by the Fund Manager holding tradable shares issued by a listed company must not hold more than 15% of the tradable shares of such listed company.

17. All portfolios managed by the Fund Manager holding tradable shares issued by a listed company must not hold more than 30% of the tradable shares of such listed company.

18. The total market value of the Fund's active investment in Liquidity Restricted Assets must not exceed 15% of the Net Asset Value of the Fund. Where the Fund becomes non-compliant with this restriction due to factors that are out of the Fund Manager's control such as fluctuations in the securities market, suspension of securities of listed companies and changes in fund sizes, the Fund Manager shall not actively increase the Fund's investment in the Liquidity Restricted Assets.

19. If the Fund carries out reverse repurchase transactions with private securities asset management products and other entities recognized by the CSRC as transaction counterparties, the quality of the collateral received shall be consistent with the scope of investment agreed in the Fund Contract.

20. The ratio limit of the Fund's investment in depository receipts shall be implemented in accordance with domestic listed and traded stocks, and shall be calculated in combination with domestic listed and traded stocks.

21. Notwithstanding the foregoing, the investment portfolio may go beyond the above-mentioned restrictions due to the fund size or market fluctuations, provided that the Fund Manager shall adjust the investment portfolio within reasonable period so as to meet the said standards. If the Fund's portfolio does not comply with provisions 4, 5, 9, 11, 16 and 17 due to factors not attributable to the Fund Manager such as securities market fluctuation, change in fund size and payment of consideration for reform of shareholder structure, the Fund Manager shall make the necessary adjustments within ten trading days. If, during the Fund's holding of the asset-backed securities, the credit rating thereof downgrades and no longer complies with the investment standards, all asset-backed securities shall be sold within 3 months from the publication date of the rating report.

(VIII) Prohibited acts

The Fund shall not engage in the following conducts:

1. Invest in other funds.
2. Trade securities in the name of the Fund by using the capital that is not under the name of the Fund.
3. Use the Fund's properties for guarantee, capital lending or loans.
4. Engage in securities underwriting.
5. Engage in securities credit transactions.
6. Engage in real estate investment.
7. Engage in any investment which may subject the Fund to unlimited liabilities.
8. Invest in the securities issued by a company that is connected to the Fund Custodian or the Fund Manager.
9. Commit insider trading, and market manipulation to impair the interests of the Fund Unitholders through connected transactions.
10. Coordinate with the promoter of the Fund Manager and any other institutions in securities investment business.
11. Other acts prohibited by laws and regulations as well as the regulatory authorities.

(IX) Performance measurement benchmark

The performance measurement benchmark of the Fund is an absolute return standard and is a one-year fixed deposit rate. The Fund shall exceed the one-year fixed deposit rate at a higher probability to secure higher absolute return. The “one-year fixed deposit rate” refers to the one-year RMB deposit benchmark rate of financial institutions released and implemented by the People's Bank of China.

When a reasonable market-oriented interest benchmark is released, the Fund Manager may determine to change the performance measurement benchmark according to the investment objectives and investment strategies and timely announce the same.

(X) Principles of exercising the shareholders' rights by the Fund Manager on behalf of the Fund

1 Do not seek for the shareholding or direct management of the invested enterprises.

2. All the participating activities shall be carried out on the premise of complying with laws and regulations and maintaining the interests of the Fund's investors, and seek for value maintenance and appreciation of the assets of the Fund.

(XI) Financing of fund

Financing may be conducted for the Fund in accordance with the relevant regulations of the PRC.

XII. Assets of the Fund

(I) Composition of the Assets of the Fund

The Total Asset Value of the Fund includes the total value of all securities, the principal and interest of bank deposits, and other investments held by the Fund.

The Net Asset Value of the Fund is calculated by deducting liabilities from the Total Asset Value of the Fund.

(II) Asset Account of the Fund

The Fund shall open the bank deposit account and securities account designated for the Fund in accordance with related regulations, which shall be segregated from the respective proprietary asset accounts of the Fund Manager and the Fund Custodian, as well as asset accounts of other funds.

(III) Safekeeping and Disposal of Assets of the Fund

1. The assets of the Fund are segregated from the assets owned by the Fund Manager and the Fund Custodian. The Fund Manager or the Fund Custodian shall not include the assets of the Fund into its own assets.

2. All the assets and income received by the Fund Manager and the Fund Custodian arising from the management, operation of the assets of the Fund or otherwise shall form part of the assets of the Fund.

3. In the event that the Fund Manager or the Fund Custodian is under liquidation proceedings because of lawful dissolution, being legally revoked or declared bankruptcy, the assets of the Fund must not form part of the liquidation assets of the Fund Manager or, as the case may be, the Fund Custodian.

4. Debts not borne by the assets of the Fund themselves shall not be enforced against the assets of the Fund.

XIII. Valuation of Assets of the Fund

(I) Purpose of Valuation

The Valuation of Fund Assets is to objectively and accurately reflect the value of the assets of the Fund.

(II) Valuation Date

After the Effective Date of Fund Contract, the assets of the Fund shall be valued on every Business Day and on non-Business Days on which the Net Asset Value of the Fund shall be disclosed as required by the laws and regulations of the state.

(III) Object of Valuation

Marketable securities such as shares and bonds held by the Fund in accordance with the laws.

(IV) Valuation methods

1. Valuation Methods for Shares:

(1) Listed and tradable shares shall be valued based on their closing price on the stock exchange they are listed on the valuation day.

(2) Valuation Methods for Unlisted Shares:

① For the unlisted shares that are initially offered, the fair value shall be determined at cost or using valuation methods.

② For the unlisted shares that are offered through bonus issue, capitalisation issue, right issue and public offering of additional shares, they shall be valued at the market price of the same share listed on the stock exchange on the valuation day.

③ The shares that are initially publicly offered with definite lock-up period shall be valued at the market price of the same share listed on the stock exchange after the listing of such shares.

④ For the shares that are not publicly offered with definite lock-up period and circulation restriction, they are valued at fair values in accordance with the relevant provisions of the regulatory authorities or the industry association.

(3) In any case, any valuation methods stated in the above paragraphs (1) to (2) used by the Fund Manager for Valuation of Fund Assets shall be considered as appropriate valuation methods. However, if the Fund Manager for good reasons considers that none of the methods for Valuation of Fund Assets stated in above paragraphs (1) to (2) objectively reflects the fair value of the assets of the Fund, the Fund Manager may, pursuant to the specific circumstances and after consultation with the Fund Custodian, determine the value at a price which best reflects the fair value of the assets.

(4) If any latest laws or regulations of the state require otherwise, valuation shall be conducted accordingly.

2. Valuation Methods for Bonds

(1) The bonds which are listed on the securities exchanges and traded at net prices shall be valued at the closing prices on the valuation day.

(2) The bonds which are listed on the stock exchanges and not traded at net prices shall be

valued at the net prices, which are calculated by deducting the interest receivable (interest accrued from the first coupon date of the bonds or last coupon date to the valuation day) from the closing price of the bond on the valuation day.

(3) For the asset-backed securities transferred by the stock exchanges through block trading, the fair value shall be determined at cost or using valuation techniques.

(4) For the bonds that are offered and not listed, the fair value shall be determined using valuation techniques. In case a bond's fair value cannot be determined using valuation methods in a reliable manner, subsequent valuations shall be made based on its cost.

(5) For the fixed-income products that are traded on the national inter-bank bond market such as bonds and asset-backed securities, the fair value shall be determined using valuation techniques.

(6) Where a bond is traded on two or more markets at the same time, it shall be valued respectively based on the market where the bond locates.

(7) In any case, any valuation methods stated in the above paragraphs (1) to (6) used by the Fund Manager for Valuation of Fund Assets shall be considered as appropriate valuation methods. However, if the Fund Manager for good reasons considers that none of the methods for Valuation of Fund Assets stated in above paragraphs (1) to (6) objectively reflects the fair value of the assets of the Fund, the Fund Manager may, after comprehensively considering various factors such as market dealing price, market quotation, liquidity and yield curve, pursuant to the specific circumstances and after consultation with the Fund Custodian, determine the value at a price which best reflects the fair value of the asset.

(8) If any latest laws or regulations of the state require otherwise, valuation of the Fund shall be conducted accordingly.

3. Valuation Methods for Warrants

(1) Where there are warrants under the Fund, from the holding confirmation date to the disposal date or the exercise date, the listed warrants are valued at the closing price on the stock exchange on which such warrants are listed on the valuation day.

The fair value of unlisted warrants shall be determined using valuation methods. In case the fair value cannot be determined using valuation methods in a reliable manner, determination shall be based on cost. For the allotment right arising from holding of shares, the fair value shall be

determined using valuation techniques.

(2) In any case, any valuation methods stated in the above paragraph (1) used by the Fund Manager for Valuation of Fund Assets shall be considered as appropriate valuation methods. However, if the Fund Manager for good reasons considers that none of the methods for Valuation of Fund Assets stated in above paragraph (1) objectively reflects the fair value of the assets of the Fund, the Fund Manager may, pursuant to the specific circumstances and after consultation with the Fund Custodian, determine the value at a price which best reflects the fair value of the asset.

(3) If any latest laws or regulations of the state require otherwise, valuation of the Fund shall be conducted accordingly.

4. The valuation calculation of the Fund's investment in depository receipts shall be performed in accordance with the domestic listed and traded stocks.

5. When there is a Substantial Subsequent Subscription or Redemption, the Fund Manager may adopt a Swing Pricing Mechanism to ensure the fairness of valuation of the Fund.

6. Valuation Methods of Other Assets

Other assets shall be valued according to the relevant requirements of the state or as agreed in the industry.

7. In any case, any valuation methods stated in the above paragraph (1), (2), (3) or (4) used by the Fund Manager for Valuation of Fund Assets shall be considered as appropriate valuation methods. However, if the Fund Manager considers that none of the methods for Valuation of Fund Assets stated in above paragraph (1), (2), (3) or (4) objectively reflects the fair value of the assets of the Fund, the Fund Manager may, pursuant to the specific circumstances and after consultation with the Fund Custodian, determine the value at a price which best reflects the fair value of the asset.

8. If any laws or regulations of the state require otherwise, valuation of the Fund shall be conducted accordingly.

(V) Valuation Procedures

The Fund Manager conducts daily valuation of the Fund. After the Fund Manager has finished valuation of the Net Asset Value of the Fund for public disclosure purpose, the Fund Manager shall send the valuation result in writing to the Fund Custodian. The Fund Custodian shall then verify the valuation in accordance with the valuation methods, time and procedures stipulated in the Fund

Contract. If the Fund Custodian has verified the valuation and the same is correct, the Fund Custodian shall sign and return the valuation result to the Fund Manager. Review of valuation at the end of the month, in the middle of the year and at the end of the year are conducted at the same time as the verification of the Fund's accounting record.

(VI) Circumstances of Suspending Announcement of Net Value and Suspending the Valuation of the Fund

1 The trading markets of securities invested by the Fund are closed due to public holidays or other reasons.

2 The Fund Manager or the Fund Custodian cannot accurately value the value of the assets of the Fund due to force majeure or other circumstances.

3. If, on the preceding Valuation Date, more than 50% of the Net Asset Value of the Fund was invested in assets the value of which could not be referenced to any active market price and the use of valuation techniques still cause significant uncertainty to the fair value of those assets, the Fund Manager shall suspend the valuation of the Fund after consultation and confirmation with the Fund Custodian.

4. Other circumstances stipulated by the CSRC.

(VII) Confirmation of Net Asset Value per Unit and Treatment of calculation error

1. The Net Asset Value per Unit shall be rounded off to the nearest 0.001 Yuan.

2. The Fund Manager and the Fund Custodian shall take necessary, appropriate and reasonable measures to ensure the accuracy and timeliness of Valuation of Fund Assets. When there are errors in the calculation of the Net Asset Value per Unit, the Fund Manager shall make immediate correction, and take reasonable measures to prevent further losses. If any calculation error amounts to or exceeds 0.25% of the Net Asset Value per Unit, the Fund Manager shall report to the CSRC for filing. If any calculation error amounts to or exceeds 0.5% of the Net Asset Value per Unit, the Fund Manager shall make an announcement and report to the CSRC for filing.

3. The Fund Manager shall assume the liability for any losses of the investors resulting from the calculation error of the Net Asset Value per Unit. The liability shall only be limited to the direct losses of the Fund Unitholders arising from the error. The Fund Manager shall have the right to claim for indemnity against the party who is responsible for the error after paying the compensation

to the investors. The Fund Manager reserves the right to claim for return of any unjust benefits on behalf of the Fund.

4. If the relevant laws and regulations or regulatory authorities impose other requirements regarding the above circumstances, such requirements shall be complied with.

(VIII) Treatment under Special Circumstances

1 Where the Fund Manager or Fund Custodian carries out valuation in accordance with the above paragraph (3) of the valuation methods for shares, paragraph (7) of the valuation methods for bonds, paragraph (2) of the valuation methods for warrants, any inaccuracy arising shall not be regarded as a calculation error in respect of the Valuation of Fund Assets.

2. If the Fund Manager and the Fund Custodian have taken necessary, appropriate and reasonable measures to review but fail to discover the calculation error due to the errors in the data transmitted by the stock exchanges and the registration and clearing companies or force majeure, the Fund Manager and Fund Custodian may be exempted from the liability for the valuation error in the Valuation of Fund Assets. However, the Fund Manager and the Fund Custodian should actively take necessary measures to eliminate the impact of such error.

The fluctuations in the price of the securities market due to various factors subject the assets of the Fund to potential risks. Such risks mainly include:

(1) Policy risk

Changes in the national policies such as monetary policy, fiscal policy, industrial policy etc. will exert certain influence on the securities market, which result in the fluctuations in the market price and affect the fund's income, thus giving rise to risks.

(2) Economic cycle risk

Securities market is a barometer of the national economy and the economy's operation is periodic. The operation of macro-economy will affect the return of the securities market, thus giving rise to risks.

(3) Interest rate risk

Interest rate fluctuations in the financial market will result in the changes in the price and the yield of the stock market and the bond market, and at the same time directly affect the companies' financing costs and profits. If the Fund invests in stocks and bonds, the level of return thereof will be subject to the interest rate change.

(4) Operation risk of listed companies

The operation of listed companies is subject to various factors, such as market, technology, competition, management and finance etc. All these factors will result in changes in the profit of the

companies and therefore give rise to the changes in the return of the Fund's investment.

(5) Purchasing power risk

The investment objective of the Fund is to maintain and increase value of the assets of the Fund. In case of inflation, the gains from investment in securities by the Fund may be offset by the inflation, which will affect the value maintenance and appreciation of the assets of the Fund.

2. Credit risk

It refers to the risk that the Fund defaults in delivery during the transaction, or the issuer of bonds invested by the Fund defaults or refuses to pay the due principal and interest, which results in the loss of the assets of the Fund.

3. Liquidity risk

It refers to the risk that the assets of the Fund cannot be realised into cash in a rapid manner, or possible Substantial Redemption requests from investors cannot be met.

Substantial Redemption may occur during the trading of open-end funds. The Substantial Redemption may result in the difficulties in adjusting the position of the Fund, resulting in liquidity risk and even affecting the Net Asset Value per Unit.

When there is liquidity risk, the Fund Manager may comprehensively use alternative liquidity risk management tools to mitigate or cope with the liquidity risk of the Fund. Investors may face such risks as deferral of handling Substantial Redemption applications, suspension of accepting Redemption applications, deferral of paying the Redemption amount, charging short-term Redemption fees, suspension of valuation of the Fund, and adoption of swing pricing of the Fund. Investors should understand their liquidity preferences and assess whether they match the liquidity risk of the Fund.

(1) Subsequent Subscription and Redemption Arrangements of the Fund

For details, please refer to "XIII. Subsequent Subscription and Redemption of Funds" in the Fund Contract and "VIII. Subsequent Subscription, Redemption and Switching of Units" in the Prospectus to learn more about the Subsequent Subscription and Redemption arrangements of the Fund.

(2) Liquidity risk assessment of the proposed investment market, industry and assets

The main investment targets of the Fund are financial instruments with good liquidity,

including shares (depository receipts included) that are publicly offered in accordance with domestic laws and bonds and other financial instruments allowed by the CSRC to invest by the Fund. Under normal circumstances, the asset class that the Fund proposes to invest in has good liquidity. However, the Fund may still have insufficient liquidity in a special market environment. The Fund Manager shall formulate the upper and lower limit plans for the amount of cash holdings based on its historical experience and realistic conditions, and control the cash ratios or convert cash and securities within the limits. Meanwhile, the Fund Manager shall carry out decentralized investment in the targets and rationally allocate assets in combination with the expected liquidity of various underlying assets to prevent liquidity risks.

(3) Liquidity risk management measures under Substantial Redemptions

In case of Subscription Redemptions of the Fund, the Fund Manager may adopt the following liquidity risk management measures:

- ① Deferral of handling Substantial Redemption applications;
- ② Suspension of accepting Redemption applications;
- ③ Deferral of paying the Redemption amount;
- ④ Swing pricing;
- ⑤ Other measures recognized by CSRC.

(4) Situations, procedures, and potential impact on investors for implementing alternative liquidity risk management tools. After negotiating with the Fund Custodian, the Fund Manager may, on the premise of ensuring fair treatment of investors, comprehensively use various types of liquidity risk management tools to make appropriate adjustments to the Redemption applications in accordance with laws, regulations and the Fund Contract, as an aid to the liquidity risk management of the Fund Manager under specific circumstances, including but not limited to:

- ① Deferral of handling Substantial Redemption applications

In case of Substantial Redemption of the Fund, the Fund Manager may decide whether to redeem in full amount or defer to redeem in part based on the current asset portfolio of the Fund.

In this case, all or part of the investors' Redemption application may be deferred, while the net value of the Units when the investor completes the Redemption of the Fund may be different from the net value of the Units when the Redemption application is submitted.

② Suspension of accepting Redemption applications

For details, please refer to “(VIII) Determination and Procedures of Substantial Redemption” and “(IX) Rejection or Suspension of Subsequent Subscription and Suspension of Redemption or Deferral of Payment of Redemption Amount and the Relevant Treatment” in XIII. Subsequent Subscription and Redemption of the Fund” in the Fund Contract, to learn more about the circumstances and procedures for suspension of accepting the Redemption applications of the Fund.

In this case, part or all of the Redemption applications of the investor may be rejected, while the net value of the Units when the investor completes the Redemption may be different from the net value of the Units when the Redemption application is submitted.

③ Deferral of paying the Redemption amount

For details, please refer to “(VIII) Determination and Procedures of Substantial Redemption” and “(IX) Rejection or Suspension of Subsequent Subscription and Suspension of Redemption or Deferral of Payment of Redemption Amount and the Relevant Treatment” in XIII. Subsequent Subscription and Redemption of the Fund” in the Fund Contract, to learn more about the circumstances and procedures for deferral of payment of Redemption amount of the Fund.

In this case, the time for the investors to receive the Redemption amount may be deferred compared to the normal situation.

④ Collection of short-term Redemption fees

The Fund shall charge a Redemption fee of not less than 1.5% for investors who have a holding period of less than 7 days consecutively, and shall credit the full amount of the above Redemption fees to the assets of the Fund.

⑤ Suspension of valuation of the Fund

For details, please refer to “(VI) Circumstances of Suspending Announcement of Net Value and Suspending Valuation of the Fund” in “XXI. Valuation of Assets of the Fund” in the Fund Contract, to learn more about the circumstances and procedures for the suspension of valuation of the Fund.

In this case, investors have no reference to the net value of the Units, and the Subsequent Subscription and Redemption application of the Fund may be suspended.

⑥ Swing pricing

In case of Substantial Subsequent Subscription or Redemption of the Fund, the Fund Manager may adopt the Swing Pricing Mechanism to ensure the fairness of the valuation of the Fund.

When swing pricing is adopted for the Fund, the net value of the Units when investors acquire or redeem the Units shall be adjusted according to the market impact cost of the investment portfolio, so that the market impact cost can be allocated to the investors who actually make Subsequent Subscription and Redemption, thereby reducing the negative impact on the interests of the Unitholders to ensure that the legitimate rights and interests of investors are not compromised and are treated fairly.

⑦ Other measures recognized by the CSRC.

4. Management risk

During the management and operation of the Fund, the income level of the Fund may be affected by the incorrect judgment on economic situation and securities market by the Fund Manager or incomplete information received. Factors such as management level, management approaches and management techniques etc. of the Fund Manager and the Fund Custodian may affect the income level of the Fund.

5. Depositary receipts investment risk

The Fund may invest in depositary receipts, and the net asset value of the Fund may be affected by the price fluctuations of the offshore underlying securities of the depositary receipts, and the risks related to the offshore underlying securities of the depositary receipts may directly or indirectly become the risks of the Fund.

6. Operational or technical risk

It refers to the risk arisen from any operational errors or violations of operation rules by the related parties in the operation process of each business step due to defective internal control or human factors, such as unauthorised transactions, frauds of accounting department, transaction errors and IT system failures.

During various transactions or back-office operations of open-end funds, any failures or errors of any technology systems may affect regular transactions or the investors' interests. This kind of technical risk may arise from the fund management companies, the Registrars, the Sales Institution, the stock exchanges, and the securities registration and settlement institutions etc.

According to the business rules related to the front-end risk control of securities trading funds, Zhongdeng Company and the stock exchange will control the front-end quota of the securities trading funds of the trading participants. Due to execution, adjustment, suspension of the control, or abnormality of the control, it may affect normal trading, or led to the interests of investors being affected.

7. Compliance risk

It refers to the risk of breaching national laws and regulations during the management or operation of the Fund, or the investment of the Fund violates the regulations and the relevant requirements in the Fund Contract.

8. Other risks

Any event of force majeure, such as wars and natural disasters etc., will seriously affect the operation of the securities markets and may lead to the loss of the assets of the Fund.

Risks which are beyond direct control of the Fund Manager such as financial market crisis, industry competition, default of the agencies and custodians may cause loss of the interest of the Fund or the Fund Unitholders.

(II) Declarations

1. The Fund is not guaranteed by any level of government, authority or department. Investors invest in the Fund out of their free will, and shall bear the investment risks themselves.

2. Other than the direct sale of the Fund by the Fund Manager, the Fund is also sold through the Sales Agencies listed in section titled “V. Relevant Service Agencies” in the Prospectus. However, the Fund is not a deposit or a liability of these Sales Agencies, nor guaranteed or endorsed by any of them. Therefore, the Sales Agencies cannot guarantee its returns or the principal.

XIX. Termination and Liquidation of the Fund

(I) Termination of the Fund

Under any of the following circumstances, the Fund shall be terminated upon approval by the CSRC:

1. Where the number of Fund Unitholders remains less than 100 for 60 consecutive Working Days or the Net Asset Value of the Fund remains less than RMB 50 million for 60 consecutive

Working Days within the Duration, the Fund Manager shall declare termination of the Fund.

2. The Fund Unitholders' meeting votes for the Fund to be terminated.

3. The Fund is ordered by the CSRC to be terminated due to material violations of laws or misconducts.

4. The Fund Manager cannot continue to act as the manager of the Fund due to dissolution, bankruptcy, revocation, etc., and no other appropriate fund management institution assumes its rights and obligations.

5. The Fund Custodian cannot continue to act as the custodian of the Fund due to dissolution, bankruptcy, revocation, etc., and no other appropriate fund custody institution assumes its rights and obligations.

6. The Fund is merged or revoked due to changes in the investment direction.

7. Other circumstances permitted by laws and regulations or the CSRC.

If the Fund is terminated, it shall be liquidated in accordance with laws and regulations and the relevant requirements of the Fund Contract.

(II) Liquidation of the Fund

1. Liquidation Group of the Fund

(1) A fund liquidation group shall be established within 30 Working Days from the date on which the Fund is terminated and conduct the liquidation of the Fund under the supervision of the CSRC. Before the fund liquidation group takes over the assets of the Fund, the Fund Manager and the Fund Custodian shall continue to perform their responsibilities of safeguarding the assets of the Fund pursuant to the requirements of the Fund Contract and the Custody Agreement.

(2) The fund liquidation group shall consist of the Fund Manager, the Fund Custodian, certified public accountants qualified for securities business, lawyers qualified for securities legal business, and persons appointed by the CSRC. The fund liquidation group may engage necessary staff.

(3) The fund liquidation group shall be responsible for safekeeping, clearing, valuation, realisation and distribution of the assets of the Fund. The fund liquidation group can carry out necessary civil activities in accordance with laws.

2. Liquidation procedure

(1) After the Fund is terminated, the fund liquidation group shall take over the assets of the

Fund.

- (2) The fund liquidation group shall clear and confirm the assets of the Fund.
- (3) Valuation and realisation of the assets of the Fund.
- (4) The results of liquidation shall be reported to the CSRC.
- (5) An announcement regarding liquidation of the Fund shall be published.
- (6) Distribution of the assets of the Fund.

3. Liquidation expenses

Liquidation expenses refer to all reasonable fees incurred by the fund liquidation group during the Fund liquidation process, which shall be paid out of the assets of the Fund by the fund liquidation group with priority.

4. Distribution of remaining assets of the Fund

If there is any balance after deducting the liquidation expenses of the Fund from all the remaining assets after the Fund liquidation, it shall be distributed in proportion to the percentage of units held by the Fund Unitholders.

5. Announcement on Fund liquidation

The fund liquidation group shall make an announcement within 5 Working Days after the Fund is terminated and it has been reported to the CSRC for approval; any material event in the liquidation process shall be announced timely; the liquidation results of the Fund shall be announced by the fund liquidation group within 3 Working Days upon approval by the CSRC.

6. Maintenance of the accounting books and documents of liquidation

The Fund Custodian shall maintain all the accounting books and documents relating to the liquidation of the Fund for more than 15 years.

5. The name and the telephone number of the standing contact person of the meeting.

If a Fund Unitholders' meeting is convened and votes are cast by means of communications, the convener shall determine the means of communications and the method of written voting, and specify in the notice of meeting the specific means of communications, the appointed notary institution and its contact and the contact person, and the method of delivery and receipt of written votes of the Fund Unitholders' meeting. If the convener is the Fund Manager, it shall notify the Fund Custodian in writing to scrutinise the written vote-taking at the specified place. If the convener is the Fund Custodian, it shall notify the Fund Manager in writing to scrutinise the written vote-taking at the specified place. If the convener is the Fund Unitholders, they shall notify the Fund Manager and Fund Custodian in writing to scrutinise the written vote-taking at the specified place.

(IV) How to Convene a Meeting

The method for convening a meeting shall be determined by the convener, but in the case of replacement of the Fund Manager and the Fund Custodian, the Fund Unitholders' meeting shall be held by personal attendance.

1. Meeting by personal attendance. The Fund Unitholders shall attend the meeting in person or by proxy with a power of attorney to vote, and the authorised representatives of the Fund Manager and the Fund Custodian shall attend the Fund Unitholders' meeting.

In case of meetings held by personal attendance, the Fund Unitholders' meeting may commence its agenda only when both of the following requirements are met:

(1) The certificates of holdings of units of the attending Fund Unitholders, the certificates of holdings of units of the principals as presented by their proxies and the written powers of attorney of the principals shall meet the requirements of the laws and regulations, the Fund Contract and the meeting notice;

(2) A verified consolidation of the certificates of holdings of units held as at the rights registration day as presented by the attendees shall indicate that the units corresponding to all valid certificates represent more than 50% of the total units of the Fund on the rights registration day.

2. Meeting by means of communications. Voting shall be made in written form in the meetings held by means of communications.

1. If the following conditions are met, the meeting held by means of communications shall be regarded as effective:

(1) After announcing the meeting notice in accordance with the requirements of the Fund Contract, the convener makes reminding announcements in 2 consecutive Working Days;

(2) The convener notifies the Fund Custodian and / or the Fund Manager (respectively or collectively called the “Scrutineer”) to scrutinise the written vote-taking at a specified place in accordance with the requirements of the Fund Contract;

(3) Under the supervision of a notary institution, the convener collects the written votes from the Fund Unitholders in the way as required in the meeting notice;

(4) The units held by the Fund Unitholders submitting valid written votes in aggregate account for more than 50% of the total number of units on the rights registration day;

(5) The certificates of holdings of units submitted at the same time by the Fund Unitholders directly submitting a written vote or by the proxies appointed by the Fund Unitholders to submit a written vote, the certificates of holdings of units of the principals as presented by their proxies who attend the meeting and the written powers of attorney of the principals shall meet the requirements of the laws and regulations, the Fund Contract and the meeting notice;

(6) The meeting notice shall be submitted to the CSRC for filing before its publication.

If any of the conditions above for holding a meeting by personal attendance or by means of communications is not satisfied, the convener may go through the procedure of convening another meeting for the same issue. The notice period of another meeting shall be at least 10 days in advance,

but the rights registration day for determining the entitlement of the Fund Unitholders to attend the meeting shall not be changed.

(V) Agenda and Procedure

1. Agenda and proposal right

(2) Special resolutions. A special resolution shall only be made by more than two-third of the voting rights held by the attending Fund Unitholders. Significant matters including replacement of the Fund Manager, replacement of the Fund Custodian and early termination of the Fund Contract shall be approved by a special resolution.

3. The Fund Unitholders' meeting adopts open ballot voting.

4. If votes are taken by means of communications, the written votes which apparently comply with the laws and regulations and requirements of the meeting notice shall be deemed as valid votes, unless there is sufficient evidence to the contrary. Any vague or contradictory vote shall be deemed invalid.

5. Each proposal or each topic in the same proposal on the Fund Unitholders' meeting shall be discussed and voted on separately.

(VII) Votes counting

1. Meeting by personal attendance

(1) If the Fund Unitholders' meeting is convened by the Fund Manager or the Fund Custodian, the director of the meeting shall announce, after the commencement of the meeting, to elect two representatives of the Fund Unitholders among the attending Fund Unitholders together with one supervisor appointed by the convener to act as the scrutineers. If the meeting is convened by the Fund Unitholders, the director of the meeting shall announce, after the commencement of the meeting, to elect three representatives of the Fund Unitholders among the attending Fund Unitholders to act as the scrutineers.

(2) The scrutineers shall count the votes immediately after the Fund Unitholders cast their votes, and then the director of the meeting shall announce the results of the count.

(3) If the director of the meeting is suspicious of the submitted voting result, the votes may be recounted; if the director of the meeting does not recount the votes, and the Fund Unitholders attending the meeting or the proxies of the Fund Unitholders dissent from the voting result announced by the director of the meeting, they shall have the right to request recounting immediately after the announcement of the voting result, and the director of the meeting shall immediately recount and announce the recounting result.

2. Meeting by means of communications

In case of meeting by means of communications, the votes shall be counted in the following manner: the votes shall be counted by two scrutineers authorised by the convener under the supervision of an authorised representative of the Scrutineer and a notary institution shall notarise the vote counting process. If the Scrutineer has been notified but refused to supervise on site, the convener himself may authorise three scrutineers to count the votes, and a notary institution shall notarise the vote counting process.

(VIII) Effectiveness and Announcement

The convener shall report the resolutions approved by the Fund Unitholders' meeting to the CSRC for approval or filing within 5 days after approval of such resolutions. Resolutions approved by the Fund Unitholders' meetings shall become effective on the day the CSRC approves or issues non-dissenting opinion in accordance with the law.
